General Information

Overview

Financial Statement Analysis is a capstone unit within the Bachelor of Accounting course. It supports you to integrate your learning in the course and to critically examine accounting and finance concepts relevant to the analysis of financial statements. You will apply these concepts to the analysis of real firms. The focus of the unit is on analysing financial statements to better understand and interpret the economic and business realities of firms. In particular, you will learn how to use financial statements to identify what adds value. While recognising that adding value can be viewed from the perspective of a range of different stakeholders, you will focus on the interests of equity investors.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Internal staff discussions

Feedback

Formal Student Consultation times may assist some students to better communicate with the Unit Coordinator, particularly those with personal or other issues they may wish to discuss with the Unit

Recommendation

To further assist students to interact well with the Unit Coordinator, online Student Consultation times will be provided. This will be particularly designed to assist students with personal or other issues an easy way to communicate with the Unit Coordinator on a one-to-one basis.

Feedback from Unit Coordinator reflections

Feedback

To support the Assessment tile to be a 'one-stop shop' for everything on the assessments, the links to submit each of the assessments could be included in the Assessment tile in Moodle.

Recommendation

To assist with submitting assessments, the links to submit each of the assessments is included in the Assessment tile in Moodle as well as in the Assessment tab at the top of Moodle.
