General Information

Overview

Financial Statement Analysis is a capstone unit within the Bachelor of Accounting course. It supports you to integrate your learning in the course and to critically examine accounting and finance concepts relevant to the analysis of financial statements. You will apply these concepts to the analysis of real firms. The focus of the unit is on analysing financial statements to better understand and interpret the economic and business realities of firms. In particular, you will learn how to use financial statements to identify what adds value. While recognising that adding value can be viewed from the perspective of a range of different stakeholders, you will focus on the interests of equity investors.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator reflections, student evaluation feedback, discipline lead guidance, and internal review of the unit content and assessments.

Feedback

Need for comprehensive redevelopment of the unit content, assessment structure, and marking rubrics.

Recommendation

The unit should be redeveloped in consultation with the discipline lead, Head of College, LDI team, and relevant academic staff. The redevelopment should review the unit content, assessment design, marking rubrics, and overall structure of the unit as a capstone unit.
