General Information

Overview

This unit builds on the concepts of managerial accounting introduced in first-year accounting. The unit develops underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method. Activity based costing and its use to manage activities is introduced. In this unit you will integrate theoretical and technical management accounting knowledge, exercise judgment, and employ critical thinking skills in applying management accounting concepts and tools to solve problems, make management accounting decisions and evaluate the impact of these decisions on profitability.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

It would be great if the assessments were more authentic and realistic.

Recommendation

The assessments will be made more authentic and realistic by giving students opportunities to apply concepts to more realistic situations.
