General Information

Overview

Given the pervasive nature of Accounting Information Systems and Technology, accountants are increasingly expected to be competent in understanding the business processes and information systems used in organisations. This unit seeks to empower you with the essential skills and knowledge needed to successfully understand and use Accounting Information Systems throughout your career. There are two components. First, you will develop knowledge in accounting systems and business processes, basic system documentation tools, database management, fraud, appropriate internal controls, and approaches to implementing Accounting Information Systems in organisations. Second, you will develop technical competence in using productivity tools (such as MS Excel) and accounting software.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Final examination

Recommendation

Student was unhappy that final examination was invigilated and had to travel to write the paper. From T2 2024, there are no longer invigilated examinations in ACCT20072.

Feedback from Student feedback

Feedback

Student had issues understanding some concepts in the class materials and the language used

Recommendation

All teaching staff have been asked to get feedback from students regarding their understanding of the material and to provide further explanation of concepts. This is a technical subject and may have caused difficulty.

Feedback from Student feedback

Feedback

Final examination guidance

Recommendation

Although examination guidance was provided in week 12 and forum posts, students wanted more detailed feedback. Going forward, there will no longer be final examinations in this unit, however, students will be provided detailed guidance on assessment items.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Understand organisational concepts and information management to achieve Accounting Information Systems objectives
2. Reflect on the use of documentation techniques and apply relevant tools to document Accounting Information Systems
3. Describe activities performed in business processes and explore how Accounting Information Systems supports them
4. Critically reflect on the role of IT developments and how they improve the efficiency and effectiveness of business processes
5. Critically evaluate the risk of fraud and the application of risk management to achieve information security and processing integrity
6. Demonstrate skills in evaluating and using accounting software to analyse, record and report transactions.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
