General Information

Overview

Given the pervasive nature of Accounting Information Systems and Technology, accountants are increasingly expected to be competent in understanding the business processes and information systems used in organisations. This unit seeks to empower you with the essential skills and knowledge needed to successfully understand and use Accounting Information Systems throughout your career. There are two components. First, you will develop knowledge in accounting systems and business processes, basic system documentation tools, database management, fraud, appropriate internal controls, and approaches to implementing Accounting Information Systems in organisations. Second, you will develop technical competence in using productivity tools (such as MS Excel) and accounting software.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Students requested more feedback relating to practical assessments.

Recommendation

A detailed marking rubric with additional feedback commentary is already provided to each student for each assessment. Staff will be directed to inform students of this feedback. Feedback commentary will also be improved to provide more details.

Feedback from SUTE

Feedback

Low scoring items in SUTE

Recommendation

Casual staff are continually being rotated through the unit. As this is a technical unit, with elements such as SAP ERP Systems, staff are not given an opportunity to thoroughly learn the content. Staff will continually be briefed to undertake the practical activities prior to commencing teaching and to contact the UC for guidance.
