Term 2 - 2019

Profile information current as at 09/04/2024 11:09 pm

All details in this unit profile for ACCT20073 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit assesses the application of Australian accounting standards informing the recording and reporting of group structures, tax affect accounting and issues affecting assets. In this unit you will demonstrate and apply knowledge of these accounting standards to analyse and interpret issues related to these topics, and to communicate effectively. You will apply cognitive, technical and creative skills to design, evaluate and implement proposed solutions to accounting problems related to these topics.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation

Feedback

Some students were disappointed with some lecturers

Recommendation

This will be rectified. Also, the practice of providing solutions to self-study exercises in advance will be continued so as to provide clear explanations and assist students with the practical application when studying outside the classroom.

Feedback from Student evaluation

Feedback

Need to focus more on practical workshops during class time and not lengthy lecture content

Recommendation

To free up class time so that students can focus on practical application, more videos will be provided to cover the technical content.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate mastery of Australian accounting standards informing the recording and reporting of group structures, tax effect accounting and issues affecting assets
2. Apply appropriate skills to design, evaluate and implement proposed solutions to accounting problems related to group structures, tax effect accounting and issues affecting assets
3. Apply coherent body of knowledge of Australian accounting standards in analysing, interpreting and communicating effectively with professionals and non-professionals about group structures, tax effect accounting and issues affecting assets

Assessment Tasks**1 On-line test****Assessment Type**

Online Test

Task Description

Two on-line quizzes, each weighing 5% of your final grade. Test 1 assesses the content taught in Chapters 3, 5, 6, 7, 12 and 25. Test 2 assesses content taught in Chapters 26 to 29. Each test consists

of 20 multiple choice questions which may be theoretical, conceptual, and / or practical. They can also include calculations.

Each on-line test must be completed during the 22 hours and 45 minutes that it is open. Test 1 opens Wednesday 4 September (week 7) and test 2 on Wednesday 2 October (week 11). If you are seeking an extension, please ensure that you have received an approved extension from the Unit Coordinator before the test opens, as you will not be able to complete the on-line test after it closes. To allow the Unit Coordinator to review your application for extension and to grant it, please apply for extension before 4pm AEST on the Tuesday, thus the day before each test is due.

Assessment Due Date

Each test opens at 1am and closes at 11.45pm AEST on the same day. On-line test 1 opens on Wednesday 4 September (week 7), and on-line test 2 on Wednesday 2 October (week 11). Each test is open for 22 hours 45 minutes but you only have 45 minutes to start and complete the test.

Return Date to Students

Results will be available on Moodle immediately when you submit each on-line test. The answers to the questions cannot be made available.

Weighting

10%

Assessment Criteria

The test is marked on-line and the answers are based on accuracy. The questions and the answers to the test are not available to students after the test.

Submission

Online

Submission Instructions

Submit within 45 minutes from starting time. You only have one attempt for each of the tests. Please start the test at least 45 minutes before it closes at 11.45pm AEST on the due date as the system will log you out automatically once the test closes. Please ensure that you save your answers throughout your attempt. If you do not and experience problems with the technology, your answers will not be saved and you will not get a second opportunity to undertake the test. Please take screenshots of any problems you may encounter with technology as evidence.

Learning Outcomes Assessed

2 Practical and written assessment

Assessment Type

Practical Assessment

Task Description

This assessment consists of two (2) parts. Each part is worth 15% of your final grade. Part A assesses the topics covered in Chapters 3, 5 and 7 and Part B assesses the topics covered in Chapters 25 to 27.

Assessment Due Date

Part A is due Friday 9 August (week 4) and Part B on Friday 20 September (week 9).

Return Date to Students

Part A will be returned on Friday 23 August at 4pm AEST and Part B on Friday 4 October at 4pm AEST. If you submit your assignment late, including receiving an extension, your assignment will not be returned on these dates. Further, if the

marker finds unusual anomalies in your assignment, the Unit Coordinator will investigate the matter and if plagiarism is suspected, lodge a PIR. Your assignment will only be returned once this matter has been resolved. To avoid this, do your own work.

Weighting

30%

Assessment Criteria

A marking criteria sheet will be provided with each of the two parts of this assessment task, outlining the marking rubric.

You can choose to do both parts of assessment task 2 as an individual or in a pair, thus limited to two (2) students. If you choose to do it in a pair, you must email the Unit Coordinator seeking approval to do so before the dates that will be provided in the Assignment Question.

Please note that there is a late penalty of 5% of the potential mark per day for late submissions.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
