Term 2 - 2018

Profile information current as at 19/05/2024 11:36 am

All details in this unit profile for ACCT20074 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit engages students to establish an advanced understanding of the nature and development of accounting theory and its application and regulation. It builds on the students' technical skills and their foundational knowledge of accounting practice. The topics covered include the history and development of accounting, traditional approaches to the formulation of accounting, standard setting and institutional arrangements, harmonisation of accounting standards, a range of theoretical perspectives and the links between accounting theory, research and practice.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Assessment Tasks

1 Online quizzes

Assessment Type

Online Quiz(zes)

Task Description

This assessment item is an individual task. It includes two online tests of 10 marks each. Each test will consist of 20 randomly generated questions of 0.5 marks each.

Both tests will appear in Moodle on Monday of Week 6 and remain open until the due date and time provided. While the tests are available, you may undertake either test at any time of your choosing. **You may undertake each test once only. Make sure you are prepared.**

Once started, each test will be available for 40 minutes.

The online tests will cover the following material:

Online Test 1: Modules 1-6.

Online Test 2: Modules 7-11.

Each test will generate 20 questions from a large pool of questions covering the specified modules. That means that in any one online test, the modules may not be covered equally.

Any student who experiences technical difficulties with Moodle or network communications while trying to do these tests should *email* the unit coordinator immediately, and where appropriate a second attempt may be arranged.

Students must carefully note the due date and time for these tests. The online tests will disappear once this deadline has passed and will not be made available after this time. You are expected to ensure that you have undertaken the tests within the time period provided. If you are planning on doing any of these tests

on the night of closing, then be prepared for the risks of doing this. There may be many other students trying to access Moodle at the same time, Moodle may not be available, or there could be other difficulties. **This will be unfortunate, but the online tests will not be opened up again.** Please do not try and do your tests on the last day or night.

2 Group assignment - literature review

Assessment Type

Group Work

Task Description

The objective of this assignment is to assist students to learn and develop a range of skills such as researching, reviewing literature, critical analysis, evaluation and communication in a team work environment. The assignment must be completed in a group consisting of no more than 4 members. On-Campus students must form group within first 3 weeks of the term which must be within the same class. Distance students will liaise with the unit coordinator to help find a group. An online discussion and collaboration space for distance students will be provided in Moodle in Week 1. This will enable distance students to find fellow distance students who may be willing to form team. The assignment requires your group to write a comprehensive literature review on the topic provided. Your group assignment work must meet basic academic and professional standards which include articulate, critical, supported by evidence, free from errors, and most importantly, free from plagiarism. It is important that each member of the group contributes approximately equally in completing this group assignment.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
