Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Moodle site needs to be re-organized to be more accessible to students

Recommendation

The Unit Coordinator should consider reorganizing the weekly material folders or tiles on Moodle to enhance clarity and accessibility for students. It is important that any changes are clearly communicated to students, so they know where to locate the relevant materials. Special attention should be given to the placement and visibility of assessment-related resources to ensure students can easily find and engage with them.

Feedback from Self-reflection

Feedback

Enhance the usefulness of learning materials

Recommendation

Re-record the lectures on Moodle The current lecture recordings are outdated and were created by a casual teaching staff member. It is recommended that new recordings be developed by the Unit Coordinator and/or the current teaching staff who are actively delivering the content. This will ensure that the materials are accurate, up-to-date, and aligned with the current delivery of the unit.
