

ACCT20076 Foundations of Management Accounting

Term 2 - 2020

Profile information current as at 27/04/2024 09:51 pm

All details in this unit profile for ACCT20076 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit introduces management accounting and enables you to explain its role in efficient resource allocation. You will be introduced to the traditional and modern approaches to costing for evaluation and effective decision making. The role of management accounting in performance evaluation is addressed in such areas as budgeting, cost-volume-profit analysis, variance analysis, job costing, process costing, and activity-based costing.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from 'Have your say' - survey

Feedback

1. I believe due to the current facility of online class it is a bit difficult to get engaged but other than that it is good. It would be better if we could return to face to face classes. 2. As this semester went online, we are not able to do practical questions properly like we used to do before. I think it would be better if we do more practical questions in class by discussing every steps. So more focus should be given for solving practical questions during class

Recommendation

In term 2, I have created breakout rooms during our weekly zoom workshops and have students of 5-6 work in groups. Students are sent into breakout rooms and work together the problems/analysis/interpretations as a group. I visit each breakout room and facilitate the discussions and then I bring the group back together and discuss the solution as a whole. I have undertaken this for the past three weeks this term (Term 2, 2020) and has worked really well so far. I also award participation marks to the groups based on my observations and this encourages the students to engage with each other.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Analyse and report on the usefulness of management accounting for ensuring that business resources are allocated effectively and efficiently
2. Interpret, analyse and report on the behaviour of costs and their management
3. Interpret and report on the purposes of budgeting for planning and control, including the calculation and analysis of budget variances
4. Analyse and report on alternative methods of valuing and allocating overhead costs, and correctly apply the most appropriate methods for a given situation
5. Analyse and report on the interaction between inventory costs, profit and loss, and the balance sheet, and explain their relevance to the firm's financial position
6. Demonstrate application of selected theories into various management accounting phenomena.

Term Specific Information

Students to note that assessment tasks for this unit start from Week 2.

Students should either buy an eBook or a hard copy of the text book and bring the same to class beginning week 1. This will ensure that students are able to undertake the weekly quiz and weekly class participation in an effective manner.

Assessment Tasks

1 Online Test

Assessment Type

Online Test

Task Description

Each of the 10 on-line tests is worth 1% of the total grade for the unit. The on-line tests will be open on a weekly basis from weeks 1 to 11, with week 1 being a trial on-line test to get the students familiar with the process.

The materials assessed in each on-line test will be on key concepts to be covered in the following week's workshop. For example on-line Test 1 (opens on the Friday of week 1 and close on Monday of week 2) will assess the content to be taught in week 2. The purpose of the on-line test is to enable the students to prepare for the workshop prior to attending the workshop. This will allow students to grasp the material covered during the workshop, engage effectively with teams, and create a good learning environment in the workshop.

Each on-line test will open at 12.00 PM AEST on the Friday and close at 09:00 am on Monday the following week. You have a window of 68 hours to review your learning materials and attempt the on-line test.

You can only make one attempt at each on-line test and you have 20 minutes to complete each on-line test after you start it. Each test will consist of 10 questions.

Assessment Due Date

Due every week from weeks 2 to 11

Return Date to Students

Results will be available on Moodle immediately after the close of each online test

2 PRACTICAL AND WRITTEN ASSESSMENT (Part A & B) 30%

Assessment Type

Practical and Written Assessment

Task Description

This assessment task consists of two parts - PART A - Weekly Workshop Participation 10% and PART B - Written Assessment due in Week 9, 20%.

PART A - This assessment task consists of active student engagement during the weekly workshops over 10 weeks from week 2 through to week 11.

Each of the workshop participation is worth 1% totaling to 10% of the total grade for the unit.

Students within the workshop will be divided into groups during week 1 and required to stay within the group for the remainder of the term.

Students will be assessed on actively engaging with their group during the workshop sessions wherein they will be required to work out problems, analyse and interpret the working of problems within their groups.

The purpose of this is to enable students to actively engage in discussions during the workshop and arrive at solutions/conclusions by working together as a team, thereby creating a conducive learning environment.

PART B - This assessment task consists of a case study and student groups will be required to review the case study and prepare an executive report.

Content and format of the executive report will be provided on moodle when the assessment task becomes available.

The assessment task will be available in moodle in Week 5 and is due in Week 9.

This assessment task is to be completed in a team of 3-5 students. Group numbers will depend on enrollment numbers each term. This assessment task is worth 20% of the total grade for the unit.

Assessment Due Date

Week 9 Thursday (17 Sept 2020) 11:45 pm AEST

Part A occurs every week from weeks 2-11. Part B is due on Thursday in Week 9 before 11.45 PM AEST.

Return Date to Students

Results for Part A will be available via the grade book on moodle every week beginning week 3 to 12. Assignment 2B will be due back on Thursday, Week 11.

Weighting

30%

Assessment Criteria

The assessment criteria for both Part A and Part B of this assessment includes the ability to interpret, analyse and report on the behaviour of costs and their management.

Students will also be assessed on the ability to analyse and report on the usefulness of management accounting for ensuring that business resources are allocated effectively and efficiently.

When preparing your assignment, students should refer to specific assessment criteria outlined within the assignment as well as to any relevant advice posted in Moodle by the Unit Coordinator.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
