The end of term examination has now been changed to an alternate form of assessment. Please see your Moodle site for details of the assessment.

General Information

Overview

Fraud is a major problem, estimated to cost Australia over \$3 billion each year. The incidence of fraud and corporate failure is increasing along with its cost. This unit is designed to provide you with an understanding of the risks of fraud or corporate failure occurring and an appreciation for the subsequent forensic review and processes. You will learn appropriate preventive and detective methods, examine the wide range of fraud threats to individuals and organisations, and appreciate the relevant legal resolution processes.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

2 Practical Assessment

Assessment Type

Practical Assessment

Task Description

This assessment has 2 parts - Part A In-Class Presentation (10%) and Part B In-Class Test (20%).

Part A In-Class Presentation (10%)

This is a group assessment – 2 students per group. The group submits a written report on a chosen presentation topic and Powerpoint slides for the presentation. Each student in the group will receive the same mark for the report (5%) but a separate mark for the presentation (5%). Your presentation should be organised so each student speaks for approximately the same duration. Word length for the report – 1500 words. Your presentation should take approximately 10-15 minutes. You should refer to at least 5 sources in preparing your report and presentation using APA referencing. Presentation topics and rubric will be available on Moodle. Submit your report and slides to your lecturer. Arrangements for distance students will be advised.

Part B In-Class Test (20%)

This is a 1-hour in-class test to be held during your normal lecture/workshop in Week 9. Short-answer questions will be based on material covered in Weeks 1-5. Students may refer to lecture notes and the eBook, but not other Internet resources. Arrangements for distance students will be advised.

Assessment Due Date

Part A: In-class Presentation: Report and slides are due on the day of the presentation. Part B In-Class Test: Due during your normal lecture/workshop time in Week 9.

Return Date to Students

Part A In-Class Presentation: Within 2 days after the presentation. Part B In-Class Test: Attend your normal lecture/workshop in Week 11, beginning 27 May 2019 for feedback.

Weighting

30%

Assessment CriteriaPart A In-Class Presentation

Report: Use of sources, correct referencing, structure of report, synthesis and conclusions, quality of writing, grammar, syntax and spelling.

Presentation: Voice and pace, contact and engagement with audience.

Part B In-Class Test

Identifying relevant theory and demonstrating knowledge, applying relevant theory and knowledge to solve problems,

and quality of writing, grammar, syntax and spelling.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
