Part B

In this assessment, you are required to select either Option 1 or Option 2.

Option 1: Agricultural Business Plan Presentation Video (10%)

For this assessment, you are required to provide a pre-recorded video of an oral presentation in which you effectively

highlight the key elements of your business plan as if you were presenting to a potential investor or financier. Your presentation needs to be between 8-10 minutes in duration. You will need to include the following:

- Introduction – including introducing yourself, your reason for providing the oral presentation, an outline of the content to be presented, and an overview of each section that will be included in your presentation;
- Main body of your report: make sure that you highlight the key elements of your business plan in a convincing manner to effectively promote the strengths of your business plan in each of the key areas;
- Summary – present the key messages of your presentation.

Option 2: Group Business Marketing & Promotional Plan (10%)

In this group task (2 – 4 people/group) you will:

- 1) Develop a business marketing and promotional plan, including promotional materials (500 – 800 words); and
- 2) Prepare an oral presentation covering your marketing and promotional plan and developed promotional materials (8 – 10 minute group oral presentation).

Note:

- *Option 2 of Part B in the Written and Presentation Assessment item is a group presentation. All other assessment items are to be completed individually.*

For Part B assessment task (Option 1 or Option 2), you will be assessed on the content of your presentation, the method of presentation and use of visual aids, your personal presentation, time management and use of reference material.

Please take note of the following:

- Your ability to pronounce all of your words is important and your ability to persuade the audience that you know their meaning and have a full understanding of the content that you're presenting. To the audience it is quite obvious if you are not familiar with the meaning and pronunciation of your words. If you do not understand words, use a dictionary and/or replace with words with which you are familiar;
- You will need to speak clearly and confidently, and be loud enough to enable your presentation to be heard clearly;
- You will need to maintain eye contact with the camera;
- The language you use must be appropriate to the task (i.e. no swearing).

Your personal presentation is important. For this oral presentation please dress appropriately, assuming that you are presenting to a panel of supervisors, a financier or a board of directors. When presenting your oral presentation, you also need to use visual aid/s to enhance your key messages. Technical materials (e.g. camera, tripod, etc.) will be made available to students at each course campus. Students may record their presentations using their own technical materials if they wish to do so.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
