This unit integrates two VET competency units: 'Monitor and review business performance' and 'Develop and review a business plan' and covers the fundamentals required to run and operate a modern agricultural business. You will study the practical application of business principles, including developing an agricultural business plan and identifying the scope and strategic directions of the enterprise within accepted legal frameworks. You will then be required to prepare an agricultural business plan and make recommendations to improve the business. You will also monitor and review agricultural business performance, including defining the standards to use, and assess indicators that can improve agricultural business performance.
