Profile information current as at 06/05/2024 01:01 am

All details in this unit profile for AGRI13001 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

### General Information

#### Overview

This unit introduces the principles and practices relevant to the social licence to operate in the agricultural industry. You will explore how agricultural industries are dealing with the increase in global food and fibre demand while facing social and political scrutiny to cease or alter certain practices. In this unit you will examine how the agricultural industry can respond to these pressures to maintain their social licence to operate. You will use case studies to consider a range of current and emerging social licence challenges in agriculture such as animal husbandry practices, water use and contamination, environmental stewardship and the use of agri-chemicals. You will gain an understanding of the levels of the social licence to operate and the tools to measure this. You will also learn how to develop a plan for an agricultural business which will allow them to maintain their social licence to operate in a changing world.

#### Feedback from Student Unit Evaluation

**Feedback**

Podcasts require transcripts

**Recommendation**

The podcast resources for this unit should be accompanied by transcripts for students to read or follow.

#### Feedback from Student Unit Evaluation

A need to further demonstrate the relevance of the unit to the degree

**Recommendation**

While learning material, especially in the first few weeks, emphasizes the importance of the social licence to operate as an increasingly concept, attempts should be made to emphasize this further in assessment. In future iterations Assessment 2, Essay, should be adjusted to include discussion of the financial and regulatory dimensions of the social licence to operate.

#### Feedback from Student Unit Evaluation

Refining of podcasts

**Recommendation**

The podcast resources should be reviewed and a plan for continual improvement should be outlined and implemented.

## 2 Social Licence to Operate Essay

### Assessment Type

Essay

### Task Description

Assessment 2 is a written assessment. Here you will be required to use an example from an agricultural industry to answer the question: "Does Australia's agricultural sector need a social licence to operate?". In answering this question you are required to write a 2000 - 2500-word essay. Here, you will outline the social obligations your selected industry faces, drawing on evidence from a variety of sources, and you will need to consider whether or not the concept of a social licence to operate plays a role in the viability and sustainability of your selected industry and Australian agriculture in general. Your essay should explore the social obligations of farmers and agricultural industries as well as the range of risks posed by certain agricultural activities, making note of the range of current societal perspectives your selected industry faces, even if they do not align with your own viewpoint.

Your essay should follow the following format, with suggested word counts in parentheses (note that references, figure legends and tables are not included in the word count):

1. Introduction (~650 words) (including a definition of the Social Licence to Operate and a statement on your position to the question "Does Australia's agricultural sector need a social licence to operate?")
2. Body (~1300 words) (supporting your response to the question and describing the importance of the social licence challenges that your selected industry faces, considering a range of relevant viewpoints and risks)
3. Conclusion (~300 words)
4. References

Include at least 10 references (References can be peer-reviewed journal articles, government reports, industry papers, media publications and other reputable sources).

The word limit does not include headings, tables, figure legends and references. The word count of your essay should remain between 2000 and 2500 words.

# 3 Social Licence to Operate Scenario Presentation and Paper

## Assessment Type

Presentation and Written Assessment

## Task Description

Assessment 3 (40%) is based on one of a selection of three scenarios. Each scenario contains details of a proposed agribusiness. You will be provided with all of the specifications of the business (size, stock numbers, foreign ownership composition, location etc.) and a brief summary of the demographics and socioeconomic situation of the local community in the scenario as well as the results of a survey investigating the community's views on relevant farming practices.

Assessment 3 is comprised of three components: live presentation (group task: 25/40), a written assessment (individual task: 10/40) and a self and peer assessment (5/40). Only one member of the group should submit the presentation. All students will need to submit their individual written report and self and peer assessment (SPA).

### Part 1: Group Presentation

Based on the selected scenario, you are to work in small groups (4-5 people) to develop a 20-minute presentation outlining the steps that a proposed agribusiness should take to ensure it is granted and maintains a social licence to operate from the community. You will be provided with all of the specifications of the farm (size, stock numbers, foreign ownership composition, location etc.) and a brief summary of the demographics and socioeconomic situation of the local community as well as the results of a survey into the community's views on relevant farming practices.

In the scenario provided, the corporation you are to prepare the presentation for takes social licence very seriously and recognises that gaining a social licence is a vital part of their obligations to the community. As such, that corporation's leadership team are willing to implement all of the measures that you and your team recommend in order to ensure that a social licence is granted. They have issued you with a budget of \$250 000 over the next 12 months, and an ongoing budget of \$150 000 per year, to achieve this. They have asked your team to prepare a 20-minute presentation that must be presented in the following format:

1. Title.
2. Introduction:
  - a. An Acknowledgement of Country (or Welcome to Country if one of your group members is a traditional owner from the cultural group on whose land the event took place) appropriate to the scenario location.
  - b. A suggested name for the farm.
  - c. Summary of the farm.
  - d. Explaining the concept of a social licence.
3. Identify key stakeholders and their relationship with the proposed farm.
4. Identification of at least three social licence issues and how they apply to the proposed farm.
5. Strategy for measuring the social licence to operate in the relevant communities.
6. Suggestions on how the corporation will respond to community expectations around each of these issues to maintain a social licence to operate, including any innovative strategies. Keep in mind that some issues will only be relevant to local community residents whilst others might also call for gaining a broader (state, national) social licence to operate.
7. A budget for achieving what you have outlined
8. Conclusion.
9. References.
10. Statement of Contribution (Here you must outline the contributions of each group member to the presentation).

You will base your recommendations for social licence-gaining activities on a range of sources as well as the scenario information (farm specifications, a brief summary of the demographics and socioeconomic situation of the community, and the results of a survey into the community's views on relevant farming practices). You may reference information from a variety of sources including peer-reviewed journal articles, survey data, government reports, consultant reports, media sources and other reliable sources. You must include at least 10 references.

You may present your presentation in first person plural (i.e. "we" "us") or in third person. You must remain within 1 minute of the time limit (19 to 21 minutes).

Your presentation will be delivered live during week 12. You will be provided with a schedule of possible times in Moodle. All group members must be present during the presentation and each must contribute to the delivery of the presentation.

### Part 2: Individual Written Assessment

Part 2 of Assessment 3 is an individual written task based on your group's chosen scenario. In this task you are required to write a 600-800 word letter in response to a question asked of you at the conclusion of the live presentation. You must respond to the question in writing within seven (7) days of your presentation. Your response will need to include

reference to evidence to support any claims. Part 2 is worth 10/40 for this assessment.

### **Part 3: Self and Peer Assessment**

You will also be required to submit a Self and Peer Assessment worth 5/40 for this assessment (Details on conducting the Self and Peer Assessment will be provided on Moodle). Part C is due on 09/06/2023 at 11:45PM.

### **Assessment Due Date**

Slides for Part A must be submitted at 9AM on Monday of Week 12 (29/05/2023). Presentations must be delivered live during week 12. You will be provided with a schedule of possible times in Moodle. Part B is due no more than seven days after your group's presentation. Part C is due on 09/06/2023 at 11:45PM.
