

Profile information current as at 14/12/2025 12:39 pm

All details in this unit profile for ALLH11004 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

# **General Information**

## Overview

This unit will develop the knowledge of human biology, including the skeletal, muscular and nervous systems, and the role of the respiratory, cardiovascular and digestive systems. There will also be a focus on human movement and on the effects of use, disuse and ageing on the human body.

## Details

Career Level: Undergraduate

Unit Level: *Level 1* Credit Points: *6* 

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

# Pre-requisites or Co-requisites

Condition: This unit is for students from these courses only: CB66 Bachelor of Health Science (Allied Health), CB84 Bachelor of Occupational Therapy (Honours), CB85 Bachelor of Physiotherapy (Honours), CB86 Bachelor of Podiatry Practice (Honours), CB87 Bachelor of Speech Pathology (Honours)

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <a href="Assessment Policy and Procedure (Higher Education Coursework)">Assessment Policy and Procedure (Higher Education Coursework)</a>.

# Offerings For Term 3 - 2018

Mixed Mode

# Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

# Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

# Class and Assessment Overview

## Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

# Class Timetable

#### **Regional Campuses**

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### **Metropolitan Campuses**

Adelaide, Brisbane, Melbourne, Perth, Sydney

# **Assessment Overview**

1. Online Quiz(zes)

Weighting: 50%

2. Practical Assessment

Weighting: 50%

# Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

# All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the CQUniversity Policy site.

# Previous Student Feedback

# Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

# Feedback from Student feedback from unit evaluations.

#### **Feedback**

Students enjoyed the online quizzes.

#### Recommendation

5 - Team Work

Continue to provide online guizzes as an assessment item for this unit.

# **Unit Learning Outcomes**

## On successful completion of this unit, you will be able to:

- 1. Identify anatomical structures of the skeletal, muscular and nervous systems for the head and upper quadrant.
- 2. Explain the role of the respiratory, cardiovascular and digestive systems in body maintenance and physiological regulation.
- 3. Explain normal function of human movement.
- 4. Analyse how human body responds to use and disuse across the lifespan.

# Schedule

Week 1 - 05 Nov 2018							
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>					
Introduction & Terminology. Role of the Cardiovascular System in Body Maintenance & Physiological Regulation. Shoulder.	Gray's Anatomy for Students by Drake et al: Chapter 1 - The Body Chapter 7 - Upper Limb (read from beginning up until regional anatomy of arm) pp. 682-749 Fundamentals of Anatomy & Physiology by Martini et al: Chapter 21 - Blood Vessels & Circulation						
Week 2 - 12 Nov 2018							
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>					
Arm & Elbow.	Chapter 7 - Upper Limb (read section on regional anatomy of arm up until forearm) pp. 750-770						
Week 3 - 19 Nov 2018							
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>					
Forearm & Wrist.	Chapter 7 - Upper Limb (read section on regional anatomy of forearm up until hand) pp. 771-791						
Week 4 - 26 Nov 2018							
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>					
Hand. Upper Limb Function & Effects of Use & Disuse Across the Lifespan.	Chapter 7 - Upper Limb (read section on regional anatomy of hand) pp. 792-818 Additional readings in unit Moodle site	Quiz 1 opens on Week 4, Friday 17:00 PM (AEST) and closes on Week 5, Monday 17:00 PM (AEST).					
Vacation Week - 03 Dec 2018							
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>					
No classes - self-directed revision.							
Week 5 - 10 Dec 2018							
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>					

Chapter 2 - Back (read from beginning up until section on regional anatomy of back musculature) pp. 51-83 Bones & Joints of the Trunk. Chapter 3 - Thorax (read skeletal framework section in regional anatomy of thoracic wall) pp. 143-149 Week 6 - 17 Dec 2018 Module/Topic Chapter **Events and Submissions/Topic** Chapter 2 - Back (read section on regional anatomy of back musculature) pp. 84-98 Chapter 3 - Thorax (read intercostal spaces section in regional anatomy of Muscles of the Trunk. thoracic wall up until pleural cavities) Trunk Function & Effects of Use & pp. 150-161 Disuse Across the Lifespan. Chapter 4 - Abdomen (read regional anatomy sections on anterolateral muscles and posterior abdominal wall) pp. 282-287, 367-371 Additional readings in unit Moodle site Week 7 - 31 Dec 2018 Chapter Module/Topic **Events and Submissions/Topic** Chapter 3 - Thorax (read regional anatomy sections on pleural cavities and mediastinum) pp. 162-240 Chapter 4 - Abdomen (read regional Neurovascularity of the Trunk. anatomy sections on abdominal Quiz 2 opens on Week 7, Friday 17:00 Role of the Respiratory & Digestive viscera and posterior abdominal PM (AEST) and closes on Week 8, Systems in Body Maintenance & region, and surface anatomy) pp. Monday 17:00 PM (AEST). Physiological Regulation. 303-309, 343-409 Fundamentals of Anatomy & Physiology by Martini et al: Chapter 23 - Respiratory System Chapter 24 - Digestive System Week 8 - 07 Jan 2019 Module/Topic Chapter **Events and Submissions/Topic** Chapter 8 - Head & Neck (read conceptual overview and regional anatomy sections on skull, cranial cavity, bony orbit, temporomandibular Bones & Joints of the Head & Neck. joint, all skeletal framework sections, and teeth) pp. 835-872, 927-931, 934-935, 966, 972-976, 993, 1041, 1069-1079, 1087-1090, 1114-1119 Week 9 - 14 Jan 2019 Module/Topic Chapter **Events and Submissions/Topic** Chapter 8 - Head & Neck (read regional anatomy sections on muscles of face, orbit, mastication, neck, Muscles of the Head & Neck. Quiz 3 opens on Week 9, Friday 17:00 pharynx, larynx & tongue) pp. Head & Neck Function & Effects of Use PM (AEST) and closes on Week 10, 904-910, 936-940, 977, 1007-1009, & Disuse Across the Lifespan. Monday 17:00 PM (AEST). 1024, 1042-1044, 1061-1063, 1092-1099 Additional readings in unit Moodle site Week 10 - 21 Jan 2019

Chapter

**Events and Submissions/Topic** 

Module/Topic

Blood Supply of the Head & Neck	Chapter 8 - Head & Neck (read regional anatomy sections on meninges & blood supply of brain, face, scalp, orbit, neck, pharynx, larynx & nasal cavities) pp. 873-793, 925-926, 1003-1005, 1049-1050, 1066-1067, 1082-1084	
Week 11 - 28 Jan 2019		
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>
Nerve Supply of the Head & Neck	Chapter 8 - Head & Neck (read regional anatomy sections on cranial nerves & innervation of face, scalp, orbit, pharynx, larynx, nasal cavities, oral cavity & muscles) pp. 894-903, 914-916, 942-946, 1051, 1068, 1085-1086	Quiz 4 opens on Week 11, Friday 17:00 PM (AEST) and closes on Week 12, Monday 17:00 PM (AEST).
Week 12 - 04 Feb 2019		
Module/Topic	Chapter	<b>Events and Submissions/Topic</b>
Residential School & Practical Assessment	Residential School: Week 12 Monday, Tuesday, Wednesday Practical Assessment: Week 12 Thursday	Mixed Mode Students: Compulsory residential school in ROK. All Students: Practical Assessment.  Practical assessment Due: Week 12 Thursday (7 Feb 2019) 1:00 pm AEST
Exam Week - 11 Feb 2019		
Module/Topic	Chapter	Events and Submissions/Topic

# **Term Specific Information**

The lectures are pre-recorded lectures of Dr. Stanley Serafin.

The tutorials are pre-recorded sessions of Dr. Stanley Serafin.

Dr. Serafin is a biomedical engineer who later completed a PhD in Biological Anthropology.

# **Assessment Tasks**

# 1 Online quizzes

# **Assessment Type**

Online Quiz(zes)

# **Task Description**

An understanding of human anatomy and physiology is essential to many health professions. The fundamentals of this knowledge must be learnt and understood. The various health professions you have chosen to study have selected the knowledge and concepts taught in this unit as relevant to your future scope of practice.

- 1. There will be four separate online quizzes to assess your knowledge of the unit material.
- 2. The number of questions and weighting for each quiz is outlined below.
- 3. Only one attempt is allowed on each quiz so ensure you have a good internet connection before starting.
- 4. There is a minimum mark requirement in the assessment task: 50% on the cumulative score of all three quizzes.
- 5. In the absence of an approved extension, there will be no opportunity to complete the task after the assigned
- 6. Dates that each quiz open and close are outlined below. Each quiz must be completed on or before the due date listed.

Quiz	Topic	Questions	Weighting	Time / Date the Quiz Opens	Time / Date the Quiz Closes
1	Week 1,2,3,4	15	15%	17:00 PM (AEST) Friday Week 4	17:00 PM (AEST) Monday Week 5
2	Week 5,6,7	15	15%	17:00 PM (AEST) Friday Week 7	17:00 PM (AEST) Monday Week 8

3	Week 8,9	10	10%	17:00 PM (AEST) Friday Week 9	17:00 PM (AEST) Monday Week 10
4	Week 10,11	10	10%	17:00 PM (AEST) Friday Week 11	17:00 PM (AEST) Monday Week 12

Additional details regarding the Online Quizzes may be found on the unit Moodle site.

Online

## **Learning Outcomes Assessed**

- Identify anatomical structures of the skeletal, muscular and nervous systems for the head and upper quadrant.
- Explain the role of the respiratory, cardiovascular and digestive systems in body maintenance and physiological regulation.
- Explain normal function of human movement.
- Analyse how human body responds to use and disuse across the lifespan.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Technology Competence

# 2 Practical assessment

#### **Assessment Type**

Practical Assessment

## **Task Description**

In the clinical context, health professionals are expected to have in-depth knowledge and understanding of anatomical structures, physiological systems and their interrelation. In a university simulation setting you will take part in practical learning activities with anatomical models, bones and real plastinated human bodies for the purpose of familiarization with these structures.

In this practical assessment you will:

- 1. Identify and describe anatomical structures of the skeletal, muscular and nervous systems for the head and upper quadrant on anatomical models, bones and real plastinated human bodies.
- 2. Explain the role of the respiratory, cardiovascular and digestive systems in body maintenance and physiological regulation.
- 3. Explain normal function of human movemen.
- 4. Analyse how the human body responds to use and disuse across the lifespan.

The practical assessment is worth 50% of your overall mark for the unit. It is approximately 1 hour in duration. It consists of approximately 20 stations set up around the room, each with one specimen. At each station will be a station identifier that lists the questions. Some stations will have several brief identification type questions, while others may have just one physiology question. After a set period of time, you will rotate to the next station and repeat this until you have been at all stations. There will be 1 student at each station at a time. You will be given an answer sheet on which to write your answers. The practical assessment is closed book so the only things you will be allowed to have on you are pens (blue or black ink only), your answer sheet and ID (e.g., driver's license). Structures will be tagged using coloured chalk or stickers labeled A, B, C, D, etc. Questions will cover the anatomy and physiology of muscles, bones, joints, nerves, blood vessels, viscera and supporting structures in the head and neck, thorax, abdomen, back and upper limbs. Students are responsible for all content covered in class for the entire term that is visible on the specimens that we have, with particular emphasis placed on the practical activities.

#### **Assessment Due Date**

Week 12 Thursday (7 Feb 2019) 1:00 pm AEST

All students take the practical assessment in person in Week 12 in Rockhampton. The exact time will be posted on Moodle.

#### **Return Date to Students**

Within 2 weeks of assessment date.

#### Weighting

50%

#### Minimum mark or grade

50%

#### **Assessment Criteria**

For the practical assessment, your responses are scored according to the following criteria:

- correctness, relevance and completeness of the response to the question asked
- correct spelling and use of anatomical and physiological terminology

# **Referencing Style**

- Problem Solving
- Critical Thinking
- Ethical practice

# **Academic Integrity Statement**

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

## What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

#### What can you do to act with integrity?

#### **Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

### **Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
