

AVAT11006 Aviation Law

Term 2 - 2020

Profile information current as at 04/05/2024 02:29 pm

All details in this unit profile for AVAT11006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Aviation Law will introduce you to the laws in Australia that pertain to the aviation industry. Laws relevant to a variety of flight operations are covered. You will read and interpret contracts and aviation documents as well as understand flight rules and emergency procedures. You will also learn about the laws, rules, and procedures relevant to aerodromes, airspace and air services including emergency situations. Conduct in the aviation industry which would be considered negligence, breach of contract or a criminal offense will be discussed. Your knowledge of the international regulatory environment will be enhanced with a study of international aviation. The unit will also provide you with the skill to research and acquire the aeronautical knowledge requirements of the Civil Aviation Safety Authority Commercial Pilot Licence Air Law syllabus.

2. **Online Test**

Weighting: 60%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Students/Lecturer

Feedback

Students major concern concentrated on the fact the unit material did not specifically align with the Civil Aviation Safety Authority requirements. As unit co-ordinator it is apparent the degree of difficulty for year one students therefore, necessitates this unit be moved into year two or three. The Unit Profile change should remove present reference to CASA material and include a more general reference to CASA material.

Recommendation

This unit profile will be amended as considered necessary and a submission made to HOC the unit be moved to a later stage in the course, either year two or three.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Discuss law relevant to aviation staff and management
2. Identify aviation industry conduct which would be considered negligence, breach of contract or a criminal offense
3. Explain how the international civil aviation organisation regulates international flight safety
4. Compare the various international conventions which affect the aviation industry such as the Warsaw and Montreal Conventions
5. Discuss the specific air laws, rules and procedures that apply to pilots and flight crew.

No external accreditation.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
