General Information

Overview

Air Transportation provides a comprehensive introduction to the theory and practice of air transportation management, including consideration of the regulatory regime and institutions that structure the development and operation of global air services and aviation activities in different world regions. You will develop a good understanding of the broader issues affecting air transportation at an international and local level for both government and service operators. Additionally, you will gain insights into wider business issues and operational challenges relating to this highly regulated and complex industry.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.
