# **AVAT12007** *General Aeronautical Knowledge* (*Commercial Pilot Licence*) Term 1 - 2023

#### Profile information current as at 29/04/2024 10:54 pm

All details in this unit profile for AVAT12007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

# **General Information**

## Overview

General Aeronautical Knowledge (Commercial Pilot Licence) will provide you with knowledge of small commercial aircraft power plants and systems. You will cover the aeronautical knowledge requirements of the Civil Aviation Safety Authority's Commercial Pilot Licence General Aeronautical Knowledge syllabus. Topics you will study in depth include piston engine power plants and propellers. You will learn about aircraft electrical and hydraulic systems, fuel systems, and ice and rain protection systems. You will also become familiar with flight and navigation instruments.

### Details

Career Level: Undergraduate Unit Level: Level 2 Credit Points: 6 Student Contribution Band: 8 Fraction of Full-Time Student Load: 0.125

## Pre-requisites or Co-requisites

Prerequisites: AVAT11002 Basic Aeronautical Knowledge; AVAT11003 Basic Aeronautical Practice; AVAT11005 Aviation Physics and AVAT 11007-Flight Planning Performance and Operation-Private Pilot License (PPL). Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and</u> <u>Procedure (Higher Education Coursework)</u>.

## Offerings For Term 1 - 2023

- Brisbane
- Bundaberg
- Cairns
- Online
- Perth

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

## Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

## **Class and Assessment Overview**

### **Recommended Student Time Commitment**

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

## **Class Timetable**

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

Metropolitan Campuses Adelaide, Brisbane, Melbourne, Perth, Sydney

### Assessment Overview

 Written Assessment Weighting: 20%
 Online Quiz(zes) Weighting: 20%
 Examination Weighting: 60%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

#### All University policies are available on the <u>CQUniversity Policy site</u>.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

## **Previous Student Feedback**

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

### Feedback from Student evaluation

#### Feedback

Assessment feedback was insufficient.

#### Recommendation

Assessment answers should be discussed in tutorials after the assessment return.

### Feedback from Student evaluation

#### Feedback

Assessment requirements were not clear

#### Recommendation

Assessment should be discussed in tutorials.

## **Unit Learning Outcomes**

#### On successful completion of this unit, you will be able to:

- 1. Explain the operation and construction of aircraft piston engine power plants
- 2. Describe the operation and performance characteristics of fixed and variable pitch propellers
- 3. Describe the function of a typical small aircraft's mechanical system
- 4. Explain the operation and function of a light aircraft undercarriage system
- 5. Convert between various airspeeds such as Indicated Airspeed, Rectified Airspeed, Calibrated Airspeed, Equivalent Airspeed, and True Airspeed
- 6. Explain the operation of the aircraft pressure and gyro flight instruments
- 7. Discuss the basic operating principles of aeronautical radio systems.

N/A. No external accreditation.

## Textbooks and Resources

### Textbooks

AVAT12007

#### Prescribed

#### Aircraft General Knowledge

2nd edition (2018) Authors: Robson, D Aviation Theory Centre Brisbane , Queensland , Australia ISBN: 978-1-875537-14-3 Binding: Paperback

#### **Additional Textbook Information**

This Text Book is recommended as a guide for the Aviation General Knowledge Unit. Copies can be purchased at the CQUni Bookshop here: <u>http://bookshop.cqu.edu.au</u> (search on the Unit code)

#### View textbooks at the CQUniversity Bookshop

### **IT Resources**

#### You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Recommended book: Aircraft General Knowledge for the CASA PPL/CPL Day VFR Syllabus.

## **Referencing Style**

All submissions for this unit must use the referencing style: <u>Harvard (author-date)</u> For further information, see the Assessment Tasks.

# Term Specific Information

David Jensen will be the Lecturer for this unit ; contact details are : d.jensen@cqu.edu.au Tel 0404651612 Aruna Ranganthan will be the Unit Coordinator : contact details are : a.ranganathan@cqu.edu.au ; Tel: 02 9324 5748

## Assessment Tasks

### 1 Written Assessment

#### Assessment Type

Written Assessment

### Task Description

#### Aim of the assignment

To broaden your understanding of knowledge presented in the unit.

#### **Assignment Description**

Perform a comparative study of the Cessna 172 and PA 28 airplanes and make recommendations of the suitability of each aircraft for different types of operations.

Submit a report that contains:

· A brief summary/overview/history of the aircraft;

· A discussion (comparative study). Include design, systems, performance, weight and balance, capacity, range,

endurance, etc.;

 $\cdot$  Conclusion and recommendations.

Since there is an element of Team Work in this assignment, you may work within a team to discuss your methodology. However, each student is required to submit a unique paper, which is subject to the standard plagiarism policies.

#### Resources

As required.

#### Format

The paper should be written in a report format with a title page, executive summary, introduction, main body and conclusion / recommendations.

Referencing required is Harvard style.

Include number the pages, word count and a table of contents.

Use Calibri (Body) 11 font.

#### Assessment

Refer to the Rubric marking matrix on Moodle.

#### **Assessment Due Date**

Week 6 Monday (17 Apr 2023) 11:45 pm AEST

#### **Return Date to Students**

Week 8 Monday (1 May 2023)

### Weighting

20%

#### Assessment Criteria

Refer to Rubric on Moodle.

#### **Referencing Style**

• <u>Harvard (author-date)</u>

#### Submission

Online

#### Learning Outcomes Assessed

- Describe the function of a typical small aircraft's mechanical system
- Explain the operation and function of a light aircraft undercarriage system
- Explain the operation of the aircraft pressure and gyro flight instruments
- Discuss the basic operating principles of aeronautical radio systems.

#### **Graduate Attributes**

• Communication

- Critical Thinking
- Information Literacy
- Ethical practice

## 2 Online Quizzes

#### Assessment Type

Online Quiz(zes)

#### **Task Description**

Complete the online quizzes. Details of the online quizzes (such as syllabus, format and schedules of quiz and returns), wil be available in Moodle in week 1.

#### Number of Quizzes

Frequency of Quizzes Other

#### Assessment Due Date

Details of the due dates of online quizzes wil be available in Moodle in week 1.

#### **Return Date to Students**

Details of the feedback on online quizzes, wil be available in Moodle in week 1.

#### Weighting

20%

Assessment Criteria Refer to Rubric on Moodle.

#### **Referencing Style**

• Harvard (author-date)

#### Submission

Online

#### Learning Outcomes Assessed

- Explain the operation and construction of aircraft piston engine power plants
- Describe the operation and performance characteristics of fixed and variable pitch propellers
- Explain the operation and function of a light aircraft undercarriage system
- Convert between various airspeeds such as Indicated Airspeed, Rectified Airspeed, Calibrated Airspeed, Equivalent Airspeed, and True Airspeed
- Discuss the basic operating principles of aeronautical radio systems.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Ethical practice

## Examination

### Outline

Complete an invigilated examination.

#### Date

During the examination period at a CQUniversity examination centre.

#### Weighting

60%

Length 120 minutes

Minimum mark or grade 50%

Materials

Dictionary - non-electronic, concise, direct translation only (dictionary must not contain any notes or comments).

# Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

#### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

#### Be Honest If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
