# AVAT12015 Aviation Economics

## Term 2 - 2024

Profile information current as at 17/05/2024 02:42 pm

All details in this unit profile for AVAT12015 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

Aviation Economics will provide a broad perspective of how economic theories and financial concepts relate and apply to the air transport industry. You will develop a critical awareness of the economic principles and theories that underpin air transport management and the concepts of demand and supply, elasticity, and regulation and deregulation as they apply to airlines and airports. In this unit, you will examine the inter-related nature of air transport and other sectors of an economy, and the interactions of air transport with broader socio-economic, tourism and environmental issues.

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.
