

Profile information current as at 03/05/2024 09:30 am

All details in this unit profile for AVAT13008 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Navigation (Air Transport Pilot Licence) will provide you with advanced knowledge of national and international navigation procedures applicable to heavy aircraft operations. You will cover the aeronautical knowledge requirements of the Civil Aviation Safety Authority Air Transport Pilot Licence (ATPL) navigation syllabus. You will learn how to interpret chart projections. You will convert between international time zones and study radio navigation aids. Altimetry procedures required for international and national flights will be examined. You will calculate critical points and convert between airspeed types.

Details

Career Level: Undergraduate

Unit Level: Level 3 Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisites: AVAT12009 Navigation (Commercial Pilot Licence) and AVAT12008 Meteorology (Commercial Pilot Licence).

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and Procedure (Higher Education Coursework)</u>.

Offerings For Term 1 - 2021

- Bundaberg
- Cairns
- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

Metropolitan Campuses

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

Online Test
 Weighting: 40%
 Examination
 Weighting: 60%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the CQUniversity Policy site.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Evaluation

Feedback

The concepts in the subject were hard to understand but were explained well and it was ensured that each topic was fully understood before moving on.

Recommendation

This is one of the most difficult papers at ATPL level. Concepts are complex in nature and the solution is 'active interactive discussions' with students. Students were and will be given repeated explanations of complex concepts.

Feedback from Student Evaluation

Feedback

A solid three hours of lectures covering physics or complex concepts is hard to comprehend.

Recommendation

The nature of this unit includes complex concepts in Flight Navigation at the highest level (ATPL). Adequate breaks (during the three hour session) will be given to refresh the students.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

- 1. Demonstrate competencies on the Advanced Navigation components of ATPL (Airline Transport Pilot License); as detailed in Schedule 3 of Part 61, MOS (Manual of Standards) of CASR (Civil Aviation Safety Regulations)
- 2. Interpret the various global navigation chart projections and explain their use on national and international flights
- 3. Convert between global time zones, Universal Coordinated Time and local time
- 4. Evaluate the operation and limitations of radio navigation aids
- 5. Examine the altimetry procedures used on national and international flights
- 6. Convert between various airspeed types
- 7. Calculate on-track and off-track critical points for various abnormal operations.

Assessment Tasks

1 Mid-Term Test

Assessment Type

Online Test

Task Description

Mid-Term Test will be conducted in week 7. The syllabus will cover on the concepts that are taught during the lectures taught upto week 6. The duration of the test is 90 minutes. The test will be available online (in Moodle) for the students for a fixed duration of 1.5 hrs; commencing at one specified time only. There is no alternative timeslot available (for the Test), on the day of the TEST. The details of the Mid-Term Test will be promulgated in Moodle in second/third week. Please ensure your availability for this Mid-Term Test on the specified date and time-slot. Only one attempt is allowed. Absentees will not be given another chance. The University regulations will strictly apply to the absentees for possible consideration of a RE-TEST. This Mid-Term Test is worth 40%; and the specified date and time will be promulgated in week two/three. This gives adequate notice for all the students to plan/modify their work-schedules or other commitments and ensure their presence for the exam.

Assessment Due Date

Week 7 Tuesday (27 Apr 2021) 12:00 am AEST Online TEST (Moodle)

Return Date to Students

Week 9 Tuesday (11 May 2021) Results as per University Policy.

Weighting

120 minutes

Minimum mark or grade

50%

Exam Conditions

Closed Book.

Materials

Dictionary - non-electronic, concise, direct translation only (dictionary must not contain any notes or comments).

Calculator - non-programmable, no text retrieval, silent only

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
