General Information

Overview

In this unit you will gain an insight into aviation safety management systems. You will learn the skills to establish a safety management system tailored to an individual aviation operation considering organisational structures, accountabilities, policies and procedures. You will also gain knowledge about the International Civil Aviation Organisation's mandate for member states to establish a State Safety Program and how each organisation within a state is required to establish a Safety Management System subject to the rules and regulations of that jurisdiction.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.
