AVAT20002 Aeronautical Practice 2

Term 3 - 2023

Profile information current as at 07/02/2023 10:02 pm

All details in this unit profile for AVAT20002 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In Aeronautical Practice 2 you will receive basic navigation flight training and basic instrument flight training. The flight training will be delivered by an approved external flight training provider. This unit will require you to synthesise the theory you have learnt in earlier study with flight practice while engaging in up to 30 hours of cross country navigation experience in a small general aviation aeroplane. Before departure, you will develop a flight plan for your cross country exercise. You will practise flight navigation techniques which will allow you to fly solo on cross country navigation exercises. Upon the completion of your training flights, you will analyse and reflect on your navigation to improve your skills. You will also develop communication, analytical and presentation skills to review your flight training. You will be required to attend residential school in order to satisfy part of the assessment.
