

AVAT20003 Aeronautical Practice 3

Term 2 - 2020

Profile information current as at 29/04/2024 05:18 pm

All details in this unit profile for AVAT20003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In Aeronautical Practice 3 you will consolidate your solo cross country navigation experience through the synthesis of theory and practice. Your flight training will be provided by an external flight training provider. You will be able to fly solo to a distant aerodrome, land and later return to your training aerodrome. Solo night flights will be conducted in the circuit area to enable you to meet the night solo requirements of the Command Instrument Rating. You will accumulate the minimum aeronautical experience requirements for the Private Pilot Licence. You will also develop analytical, communication and presentation skills to review your flight training. You will be required to attend residential school in order to satisfy part of the assessment.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Evaluation and Unit Coordinator observation

Feedback

Feedback opportunities for students during flight training.

Recommendation

Feedback process will be introduced in the form of Student Flight Progress Reports and will be monitored throughout the flight practical part of the term.

Feedback from UC observation

Feedback

Assessment and presentation instructions.

Recommendation

All assessment instructions have been harmonised and improved to be in sync with all other CL17 flight units.

Feedback from UC observation

Feedback

Presentations

Recommendation

Students enjoyed the presentation week via Zoom. As long as residential weeks are not conducted this procedure will be in kept in place as it improves student engagement and assignment quality.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Pilot an aeroplane solo under supervision on a navigation exercise to a distant aerodrome, land and return
2. Pilot an aeroplane solo under supervision in the circuit area at night
3. Analyse and reflect critically on your navigation and night flight training
4. Synthesise aviation theory and flight practice relevant to navigation and night exercises
5. Communicate effectively with aviation staff.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
