

AVAT20007 Advanced Aeronautical Practice 3

Term 3 - 2020

Profile information current as at 06/05/2024 04:51 am

All details in this unit profile for AVAT20007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Advanced Aeronautical Practice 3 will complete your flight training to meet the aeronautical experience requirements of the Commercial Pilot Licence. Your flight training will be conducted by an approved external flight training provider. This will provide you with 100 hours of Pilot In Command (PIC) flight experience. In this unit you will fly as Pilot in Command (PIC) on long distance flights visiting multiple aerodromes in primary controlled zones, regional centres and outback Australia. This capstone unit will give you the opportunity to synthesise and reflect on the theory, knowledge and skills you have acquired throughout your study. As Pilot in Command, you will be able to demonstrate leadership and accountability in a commercial aviation setting. After completing this unit you should have the aeronautical experience required to apply for the Commercial Pilot Licence. You will be required to attend residence school on the Cairns Campus in order to satisfy part of the assessment.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Recommendation

Both were harmonised and improved to be in sync with all other CL17 flight units.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Develop and justify a sophisticated flight plan for an extended primary control zone multi-destination commercial navigation exercise
2. Pilot an aeroplane solo and in teams on extended primary control zone multi-destination commercial navigation exercises
3. Analyse and reflect critically on your long distance multi-destination primary control zone navigation training
4. Synthesise aviation theory and flight practice to the standard of a Commercial Pilot
5. Communicate coherently with aviation staff
6. Demonstrate leadership and accountability in a commercial aviation setting.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
