

BIOL12050 *Professional Placement or Project*

Term 3 - 2018

Profile information current as at 30/04/2024 02:42 am

All details in this unit profile for BIOL12050 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In Professional or Project you will either complete a placement in a workplace relevant to your degree and major or if your GPA is 5.0 or greater you may have the option of undertaking a short research project. This unit will provide you with an opportunity to apply the theoretical knowledge and practical skills attained in your degree course to the professional work environment. In Professional Placement, you will complete 15 days relevant industrial experience with an emphasis on the interaction of your university learning with the practical environment. If you have a GPA of 5.0 or better you may choose to undertake an independent research project approved by the coordinator. You are required to find your own placement or project and details of the placement or project must be provided to the coordinator prior to commencing the placement or project.

Written Assessment

Task Description

Task Description

A portfolio must be submitted that includes:

1. Current CV for Placement or Research Proposal for Project
2. Placement or Project Daily Diary
3. Professional Placement or Research Project Report
4. Supervisor's Report

1. Current CV for Placement or Research Proposal for Project

Depending on whether you are undertaking a work placement or a research project you need to do one of the following:

1a. Professional Placement

Upload a current CV into Moodle or email it to the unit coordinator if commencing your placement before the Moodle site is available. This should be the CV you may submit to the workplace when organising your placement.

1b. Research Proposal

In consultation with your supervisor, prepare a research proposal that should include, project title, brief background to the research question, aims of the project, proposed methods, estimate of required funds and funding source.

The proposal should be unloaded to Moodle or emailed to the unit coordinator if commencing the project before the Moodle site is available.

2. Placement or Project Daily Diary

You must keep a diary detailing daily activities and responsibilities.

3. Professional Placement or Research Project Report

You must write a report of approximately 2500 words in one of the following formats, depending on whether you have completed a professional placement or a research project.

3a. Professional Placement Report

If you have undertaken a professional placement, you must write a report detailing the nature of the work and providing a detailed description of the type of activities undertaken.

You should also (i) describe the knowledge gained and the skills learned during the placement; (ii) reflect on how the knowledge and skills relate to your program of study and may be useful in your future career and (iii) identify knowledge and skills that would have been useful to have before going on your placement..

3b. Research Project Report

If you have undertaken a research project, you must write a report about the research in standard scientific report format.

4. Supervisor's Report

The workplace or research supervisor is required to complete a short feedback form that includes an assessment of your progress and work ethic during the placement or project. This report must be included in the portfolio. If the supervisor requires confidentiality, the report may be forwarded to the unit coordinator.

Assessment Due Date

Four weeks from completion of Placement or Project

Return Date to Students

Two weeks after submission of assessment.

Weighting

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
