

BIOL12050 *Professional Placement or Project*

Term 3 - 2023

Profile information current as at 25/04/2024 04:09 am

All details in this unit profile for BIOL12050 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In Professional Placement or Project you will either complete a placement in a workplace relevant to your degree and major, or if your GPA is 5.0 or greater, you may have the option of undertaking a short, independent research project approved by the unit coordinator. Alternatively, options for you to complete an international placement or study tour may also be available. This unit will provide you with an opportunity to apply the theoretical knowledge and practical skills you have attained in your course to the professional work environment. You will complete 15 days relevant industry experience with an emphasis on the interaction of your university learning with the practical environment. You are required to find your own placement or project and details of the placement or project must be provided to the unit coordinator prior to commencing the placement or project.

Assessment Type

Portfolio

Task Description

A portfolio must be submitted that includes:

1. Current CV
2. Daily Diary
3. Supervisor's Feedback Form

1. Current CV

Upload a current CV into Moodle or email it to the unit coordinator if commencing your placement before the Moodle site is available. This should be the CV you may submit to the workplace when organising your placement.

2. Daily Diary

Upload a copy of a diary detailing daily activities and responsibilities.

This needs to include a reflection on:

- (i) the knowledge you gained and the skills learned during your industry placement or research project;
- (ii) how the knowledge and skills relate to your program of study and may be useful in your future career and
- (iii) identification of knowledge and skills that would have been useful to have before going on your industry placement or research project.

3. Supervisor's Report

The workplace or research supervisor is required to complete a short feedback form that includes an assessment of your progress and work ethic during the placement or research project. A copy of this form must be included in the portfolio. If the supervisor requires confidentiality, the report may be forwarded directly to the Unit Coordinator. The feedback form will be sent directly to your supervisor via Sonia. You will be able to see the form in Sonia after it is finalised. You must print/save a copy from Sonia for submission to Moodle.

There is no minimum or maximum word limit for these pieces but they should be succinct and clearly written.

Assessment Due Date

Four weeks from completion of Placement or Project

Return Date to Students

Two weeks after submission of assessment.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
