

BIOL12107 Genomes, Genetics & Evolution

Term 3 - 2019

Profile information current as at 05/05/2024 06:40 am

All details in this unit profile for BIOL12107 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit focuses on the role of the genome in adaptive change in living organisms, particularly animals. It brings together recent advances in our understanding of the genome and the impact of these on the traditional areas of zoology, particularly those involving evolutionary processes. The unit provides a link between molecular biology and other areas of biology including genetics, evolution, taxonomy, embryology and behaviour. The latter part of the unit focuses on various aspects of human evolution.

Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisites BIOL11099 Living Systems or BMSC11002 Human Body Systems 1 or BIOH11005 Introductory Anatomy & Physiology

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 3 - 2019

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Assessment Overview

1. **Written Assessment**

Weighting: 30%

2. **Online Quiz(zes)**

Weighting: 20%

3. **Examination**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Use correct terminology to describe genetics, genomes and evolution.
2. Discuss the concepts of heritability, mutation, development, Mendelian genetics, extranuclear and multi-allelic inheritance, the Hardy-Wienberg Law and related topics in quantitative genetics.
3. Explain the mechanisms of change in the genome including the concepts of genetic disorders adaptation and speciation.
4. Discuss behavioral and population genetics, socio-biology and ethics.

Schedule

Week 1 - 11 Nov 2019

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to cells, organelles and genetics	1, 2	

Week 2 - 18 Nov 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Mutation, DNA repair and transposition 12-15

Week 3 - 25 Nov 2019

Module/Topic	Chapter	Events and Submissions/Topic
Mendelian genetics	3	

Week 4 - 02 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
Non-Mendelian genetics	4	

Vacation Week - 09 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 5 - 16 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
Chromosome mapping	5-7	

Week 6 - 23 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
Extranuclear inheritance	8, 9	

Week 7 - 06 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Developmental genetics	18, 19	

Week 8 - 13 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Genetics of behaviour; population and sociobiology	24	

Week 9 - 20 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Genes meet social science - ethics and genetics	22	

Week 10 - 27 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Evolutionary and conservation genetics	25, 26	

Week 11 - 03 Feb 2020

Module/Topic	Chapter	Events and Submissions/Topic
Genomics, Proteomics and Bioinformatics	21	Written assessment due Monday 03/02/2020 Essay Due: Week 11 Monday (3 Feb 2020) 11:45 pm AEST

Week 12 - 10 Feb 2020

Module/Topic	Chapter	Events and Submissions/Topic
Current research in genetics	Latest research review	Online quiz open on Wednesday 10/02/2020 Online Quiz(zes) Due: Week 12 Monday (10 Feb 2020) 11:45 pm AEST

Exam Week - 17 Feb 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Assessment Tasks

1 Essay

Assessment Type

Written Assessment

Task Description

Write an essay discussing a single genetic disease of your choice. The disease does not have to be covered in lectures, you can choose any disease as long as it is genetic in origin. The assignments discussing only disease symptoms will fail. Make sure you cover the genetic origin of the disease.

Recommended word length is 2000-3000 words excluding references.

You will be given an opportunity to email a draft to the unit coordinator for feedback before you submit. No marks will be given at the feedback stage, but you will get advice on how to improve your work.

Multiple videos on how to prepare this assignment are available on Moodle. The videos cover every aspect of essay writing, for example, what to cover, the structure, referencing and getting the most out of MS Word in terms of formatting and revisions. Additional support provided during assignment writing is also outlined on Moodle. Skype or Zoom sessions can be booked with the unit coordinator to discuss the assignment topic and get additional writing feedback.

The due date is set late in the term as per previous student Moodle feedback, however, it is advised that you aim to submit this assignment earlier if possible. You will get your marks within 2 weeks of submission whenever you choose to submit before the week 11 deadline.

Assessment Due Date

Week 11 Monday (3 Feb 2020) 11:45 pm AEST

Submit the assessment by due date.

Return Date to Students

Weighting

30%

Minimum mark or grade

40%

Assessment Criteria

Details of assessment criteria will be provided in week 4 tutorial on Moodle. The criteria will include:

- Quality of the literature discussed (40%)
- Complexity of the content (20%)
- Presentation (20%)
- Clarity of expression (10%)
- Referencing (10%)

Additional particular details on each assessment criteria are available on Moodle.

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

Submission

Online

Submission Instructions

All submissions must be done in Moodle. Upload MS Word documents only, no pdf. Feedback will be provided in track change mode.

Learning Outcomes Assessed

- Use correct terminology to describe genetics, genomes and evolution.
- Discuss the concepts of heritability, mutation, development, Mendelian genetics, extranuclear and multi-allelic inheritance, the Hardy-Wienberg Law and related topics in quantitative genetics.

- Explain the mechanisms of change in the genome including the concepts of genetic disorders adaptation and speciation.
- Discuss behavioral and population genetics, socio-biology and ethics.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence

2 Online Quiz(zes)

Assessment Type

Online Quiz(zes)

Task Description

Your second assessment is 50 questions online multiple-choice quiz covering the material from week 1 to week 10. The questions in the quiz are randomly chosen from the weekly quizzes that you will have access to ONLY during that particular week, so use this bonus to prepare for this assessment. A practice quiz will be provided 1 day before the quiz opens. This practice quiz is the same as actual assessment quiz with the exception that your scores, although visible to you, are not recorded in the grade book. You will have only 1 attempt at the Quiz, however, there are no limits on how many times you can use the practice quiz.

You will have 60 minutes to finish the quiz. This is a bit over 1 minute per question.

NOTE: This quiz will be open for 1 day (24 hours) ONLY. The quiz will be open all day, Monday, 10/02/2020 (Week 12) until 11:55 PM.

In the absence of an approved extension (through Moodle, with documentary evidence) there will be no late submissions for this assessment, however, if you have a good reason to take this quiz earlier please email the unit coordinator.

More information on quizzes will be in the Moodle welcome video.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
