

# BIOL12108 Agricultural Value Chain Management

## Term 2 - 2017

Profile information current as at 24/04/2024 02:00 am

All details in this unit profile for BIOL12108 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

This unit examines the scientific basis of value adding in food production, processing and distribution. It covers management of inputs, production practices, post production product handling and processing, and wholesale and retail distribution in agricultural supply chains. Chains from different agricultural industries are analysed to identify where product attributes that are valued by the consumer have been incorporated, and on-farm profitability is assessed within these chain case studies to demonstrate the links between valued product attributes and grower returns. The use of value chain analysis tools in assessing the functioning of existing supply chains is demonstrated. The unit provides students with an understanding of sectors of the agricultural industry beyond on-farm production, knowledge of the tools that can be used to analyse supply chains, and awareness of important aspects of supply chain functioning that underlie profitable agricultural businesses.

### Pre-requisites or Co-requisites

ENVR11012 Application of Environmental Science

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 2 - 2017

- Bundaberg
- Distance
- Rockhampton

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Assessment Overview

#### 1. **Written Assessment**

Weighting: 25%

#### 2. **Written Assessment**

Weighting: 25%

#### 3. **Examination**

Weighting: 50%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## CQUniversity Policies

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Students

##### Feedback

Some amount of compulsory forum activity (or other interactive learning mode) would possibly be beneficial for students to help consolidate and apply ideas.

##### Recommendation

Implement Zoom

#### Feedback from Students

##### Feedback

A little light in content.

##### Recommendation

Add more relevant content.

## Unit Learning Outcomes

### On successful completion of this unit, you will be able to:

1. Explain the scientific basis of food product quality attributes.
2. Explain the concepts of value chain management.
3. Apply the principles of value chain management in the analysis of agricultural supply chains.

## Assessment Tasks

### 1 Agricultural supply chain features

#### Assessment Type

Written Assessment

#### Task Description

An industry sector (e.g. beef cattle) will be selected by you for this assignment, and each student will be required to summarize the key features of that industry sector, identify major supply chains associated with the sector and present an analysis of the most important aspects of those supply chains.

#### Assessment Due Date

Week 6 Friday (25 Aug 2017) 11:45 pm AEST

#### Return Date to Students

Week 8 Friday (8 Sept 2017)

#### Weighting

25%

#### Minimum mark or grade

Students must obtain a minimum mark of 40% for each internal assessment item to pass the unit.

#### Assessment Criteria

Students will be assessed based on the following criteria;

1. Knowledge of the industry sector and supply chains analysed in the assignment
2. Analysis and evaluation of the information presented
3. Ability to effectively communicate

#### Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

#### Submission

Online

## Learning Outcomes Assessed

- Explain the scientific basis of food product quality attributes.

## Graduate Attributes

- Communication
- Information Literacy

## 2 Value Chain Analysis case study

### Assessment Type

Written Assessment

### Task Description

A detailed description of an agricultural value chain will be provided to the class. Students will undertake an analysis of this value chain, comparing features to other chains and drawing conclusions on the strengths, weaknesses, opportunities and threats to the value chain.

### Assessment Due Date

Week 10 Friday (22 Sept 2017) 11:45 pm AEST

### Return Date to Students

Week 12 Friday (6 Oct 2017)

### Weighting

25%

### Minimum mark or grade

Students must obtain a minimum mark of 40% for each internal assessment item to pass the unit.

### Assessment Criteria

The following assessment criteria will be used in this assignment:

1. Knowledge of the general principles of value chain analysis.
2. Analysis and evaluation of information.
3. Communication, including adherence to English conventions (structure, punctuation, spelling, grammar, terminology and referencing conventions).

### Referencing Style

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

**What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

**Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

**Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

**What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
