

BLAR11054 Construction Fundamentals 3

(Carpentry)

Term 2 - 2020

Profile information current as at 21/05/2024 01:14 pm

All details in this unit profile for BLAR11054 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Construction Fundamentals 3 (Carpentry) will introduce you to the procedures, principles and methods of low-rise timber frame construction used for residential buildings and other structures classified by the National Construction Code (NCC) as Building Class 1 or 10. You will learn common terms used in residential low-rise timber frame construction. You will complete practical components on-campus that will provide you with the foundations of theory application in these constructions.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2020

- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

1. **Portfolio**

Weighting: 100%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Lecturer reflection

Feedback

Consider lowering current course entry from op14/ sr68.

Recommendation

Reset entry level to op18/sr61.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Formulate a satisfactory design response to the predicted forces acting on residential low-rise timber frame construction
2. Explain the common terms used in residential low-rise timber frame construction
3. Describe the construction process related to principal structural and non-structural elements for residential low-rise timber frame construction
4. Discuss the plant selection and processes used for residential low-rise timber frame construction
5. Demonstrate teamwork skills and collaboration to complete construction tasks.

Schedule

Week 1 - 13 Jul 2020

Module/Topic	Chapter	Events and Submissions/Topic
Demolition of minor buildings	Refer to Moodle for further information.	

Week 2 - 20 Jul 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Flooring	Refer to Moodle for further information.
----------	--

Week 3 - 27 Jul 2020

Module/Topic	Chapter	Events and Submissions/Topic
Wall frames	Refer to Moodle for further information.	

Week 4 - 03 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Wall frames (continued)	Refer to Moodle for further information.	

Week 5 - 10 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Roof trusses	Refer to Moodle for further information.	

Vacation Week - 17 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
No scheduled study	Use the time as a wellness break, to catch-up or work on an assessment.	

Week 6 - 24 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Eaves	Refer to Moodle for further information.	

Week 7 - 31 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Windows and doors	Refer to Moodle for further information.	

Week 8 - 07 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Windows and doors (continued)	Refer to Moodle for further information.	

Week 9 - 14 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Wet areas	Refer to Moodle for further information.	

Week 10 - 21 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Lining and panelling	Refer to Moodle for further information.	

Week 11 - 28 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Exterior cladding	Refer to Moodle for further information.	

Week 12 - 05 Oct 2020

Module/Topic	Chapter	Events and Submissions/Topic
Plant selection	Refer to Moodle for further information.	

Review/Exam Week - 12 Oct 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Revision - portfolio & VET projects

Refer to Moodle for further information.

Portfolio Due: Review/Exam Week
Wednesday (14 Oct 2020) 11:45 pm
AEST

Exam Week - 19 Oct 2020

Module/Topic

Chapter

Events and Submissions/Topic

Relax - there is no examination.

Assessment Tasks

1 Portfolio

Assessment Type

Portfolio

Task Description

This portfolio represents a range of assessment tasks to demonstrate your understanding of the underpinning skills and knowledge for this unit. Tasks may include online quizzes, demonstration of practical skills and knowledge, topic specific research reports and reflective journaling. You will research and answer questions that explore demolition, building framing, lining, panelling and cladding.

Please note that formatting and presentation is important; technical accuracy and referencing, where required, is paramount to convey clearly your response.

Your submission must be done, via the assessment link in Moodle, by uploading your file, following the on-screen instructions. Your work will be processed through the similarity detection software, Turnitin. You may amend your work based on the detection report, prior to finalising the upload.

Assessment Due Date

Review/Exam Week Wednesday (14 Oct 2020) 11:45 pm AEST

Return Date to Students

Friday 30/10/20

Weighting

100%

Assessment Criteria

The portfolio assessment will be assessed on the following criteria:

Clarity and succinctness of expression;

Adequate coverage of topics discussed;

Use of supporting information where appropriate and associated references;

Original thought;

Where appropriate the use of graphs, illustrations and other diagrams that visually support the context of your submission;

 Demonstration of the core knowledge associated with this unit and appropriate application of this knowledge.

Referencing Style

Learning Outcomes Assessed

- Formulate a satisfactory design response to the predicted forces acting on residential low-rise timber frame construction
- Explain the common terms used in residential low-rise timber frame construction
- Describe the construction process related to principal structural and non-structural elements for residential low-rise timber frame construction
- Discuss the plant selection and processes used for residential low-rise timber frame construction
- Demonstrate teamwork skills and collaboration to complete construction tasks.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Team Work
- Ethical practice

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
