

BLAR12036 *Building Design 1*

Term 2 - 2021

Profile information current as at 18/04/2024 03:40 pm

All details in this unit profile for BLAR12036 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Building Design 1 will introduce you to creative design as a process of investigation, critical observation and experimentation. You will be introduced to the client briefing process as well as to basic aesthetic and sustainable design principles and their application to the design of low rise residential and commercial buildings. By engaging in a series of short design-based projects that involve critiquing, listening consciously, researching and creatively solving design problems, you will learn how to create spatial environments that are conducive to human well-being and that meet stakeholder requirements.

Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisites: BLAR11049: Built Environment Communications and Skills or ENEG11005: Fundamentals of Professional Engineering

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2021

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Portfolio**

Weighting: 20%

2. **Portfolio**

Weighting: 40%

3. **Portfolio**

Weighting: 40%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Evaluation

Feedback

The teaching method boosts student confidence, interpersonal skills and enables students to apply knowledge gained to design work projects.

Recommendation

The interactive teaching method will continue to be offered to prepare students to work as building designers.

Feedback from Student Evaluation

Feedback

The first real practical experience that gets into the guts of building design and prepares for a future career.

Recommendation

Scaffolded, authentic assessment will continue to be offered.

Feedback from Student Evaluation

Feedback

Constructive and informative feedback provided on assessment items.

Recommendation

Constructive feedback will continue to be offered on assessment items to support student learning.

Feedback from Student Evaluation

Feedback

The complex assessments and engaging forum discussions really help to communicate ideas and improve on building designs.

Recommendation

The assessment forums will continue to be used to support student learning.

Feedback from Student Feedback

Feedback

This is the first unit that drafting is required but it is not taught. The University should provide a CAD unit.

Recommendation

Feedback on using ArchiStar to learn CAD, which is now provided by the University, has been positive and the University is currently investigating a proposal to further expand CAD support that involves provision of a specialised CAD unit.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Develop spatial environments that are conducive to human well-being demonstrating experimentation and self-reflection
2. Critique designs through the lens of building design processes demonstrating research abilities, conscious communication skills and critical, creative insight into related thought and design processes
3. Design environmentally sustainable low rise residential and commercial buildings
4. Create aesthetic low rise residential and commercial buildings
5. Creatively solve design problems to meet stakeholder requirements.

Textbooks and Resources

Textbooks

There are no required textbooks.

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Microphone and camera for use with Zoom
- ArchiStar is recommended (free access provided by CQU - contact the Unit Coordinator if you don't have access yet)

Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)
For further information, see the Assessment Tasks.

Schedule

Week 1 - 12 Jul 2021

Module/Topic	Chapter	Events and Submissions/Topic
What is the role of the building designer and what is the design process?		

Week 2 - 19 Jul 2021

Module/Topic	Chapter	Events and Submissions/Topic
How do I design approach, entrance and circulation within the building?		

Week 3 - 26 Jul 2021

Module/Topic	Chapter	Events and Submissions/Topic
Review: Spatial relationships within a building		

Week 4 - 02 Aug 2021

Module/Topic	Chapter	Events and Submissions/Topic
How does the site influence the design of a building?		Assignment 1 Due: Week 4 Thursday (5 Aug 2021) 11:45 pm AEST

Week 5 - 09 Aug 2021

Module/Topic	Chapter	Events and Submissions/Topic
How do I find a concept and form for a building?		

Vacation Week - 16 Aug 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 6 - 23 Aug 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

How do I design the exterior of a building?

Week 7 - 30 Aug 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Review: How do I apply all the theory to my design?

Week 8 - 06 Sep 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Introduction to commercial building design.

Assignment 2 Due: Week 8 Thursday (9 Sept 2021) 11:45 pm AEST

Week 9 - 13 Sep 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Concept, circulation and spatial design for commercial buildings

Week 10 - 20 Sep 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Spatial relationships within the context of the built environment

Week 11 - 27 Sep 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Review: How do I apply all the theory to my design?

Week 12 - 04 Oct 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

End of Term Review

Review/Exam Week - 11 Oct 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Assignment 3 Due: Review/Exam Week Monday (11 Oct 2021) 11:45 pm AEST

Exam Week - 18 Oct 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Assessment Tasks

1 Assignment 1

Assessment Type

Portfolio

Task Description

This assessment item will address the Unit Learning Outcomes 1 and 5.

You will develop a spatial environment that is conducive to human well-being to meet prescribed stakeholder requirements as per an interactive client briefing.

There will be opportunities for you to present your sketches and plans for feedback - it is strongly recommended that you attend these live feedback sessions.

Your submission will be a Portfolio document containing sketches and plans of your design and written responses to the assessment tasks, the focus of which will relate directly to Topics 1, 2, and 3.

Weekly topic tasks will be available on the Weekly Activity Forum and are to be submitted as part of this assignment via the Moodle portal.

Full and detailed tasks for this assignment and the assignment rubric will be available from the Assessment Block in Moodle.

Further information regarding the assessment will be available on the unit Moodle site.

Assessment Due Date

Week 4 Thursday (5 Aug 2021) 11:45 pm AEST

Submission via Moodle portal.

Return Date to Students

Week 6 Thursday (26 Aug 2021)

Students will be advised of any adverse circumstances that might delay this.

Weighting

20%

Minimum mark or grade

You must achieve 40% minimum in each assessment and an overall unit result of 50% to pass the unit.

Assessment Criteria

Marks will be allocated as specified in the assignment brief in the Assessment Block in Moodle.

Assessment Criteria are based on demonstration of the following:

- creative resolution of design problems to meet stakeholder requirements
- critical thinking and problem solving employing experimentation and self reflection

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Submission via Moodle portal.

Learning Outcomes Assessed

- Develop spatial environments that are conducive to human well-being demonstrating experimentation and self-reflection
- Creatively solve design problems to meet stakeholder requirements.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence
- Ethical practice

2 Assignment 2

Assessment Type

Portfolio

Task Description

This assessment item will address the Unit Learning Outcomes 1, 2, 3, and 4.

You will develop a spatial environment that is conducive to human well-being with a focus on both aesthetic and environmentally sustainable design as per an interactive client briefing. You will provide feedback to fellow students on draft versions of their designs and gain feedback on your draft versions via the assignment forum. There will also be opportunities for you to present your sketches and plans for feedback in Week 7 - it is strongly recommended that you attend the live feedback sessions.

Your submission will be a Portfolio document containing sketches and plans of your design and written responses to the

assessment tasks. This assessment builds on what you have learnt in Topics 1 - 3 and relates directly to Topics 4, 5, 6 and 7. Full and detailed tasks for this assignment and the assignment rubric will be available from the Assessment Block in Moodle.

Weekly topic tasks will be available on the Weekly Activity Forum and are to be submitted as part of this assignment via the Moodle portal.

Further information regarding the assessment will be available on the unit Moodle site.

Assessment Due Date

Week 8 Thursday (9 Sept 2021) 11:45 pm AEST

Submission via Moodle portal.

Return Date to Students

Week 10 Thursday (23 Sept 2021)

Students will be advised of any adverse circumstances that might delay this.

Weighting

40%

Minimum mark or grade

You must achieve 40% minimum in each assessment and an overall unit result of 50% to pass the unit.

Assessment Criteria

Marks will be allocated as specified in the assignment brief in the Assessment Block in Moodle.

Assessment Criteria are based on demonstration of the following:

- identification and creative resolution of design problems to develop spatial environments conducive to human well-being
- research and evaluation of site constraints in order to develop an environmentally sustainable building
- critical thinking and problem solving employing experimentation and self reflection to design an environmentally sustainable and aesthetic building
- constructive engagement in online discussion forums using a structured communication process when required
- use of conscious communication skills and critical, creative insight into related thought and design processes (demonstrated in plans, report and online presentation)

Referencing Style

- [Harvard \(author-date\)](#)

- Ethical practice
- Social Innovation

3 Assignment 3

Assessment Type

Portfolio

Task Description

This assessment item will address the Unit Learning Outcomes 2, 3, 4 and 5.

You will develop a spatial environment that meets stakeholder requirements with a focus on both aesthetic and environmentally sustainable design. You will provide feedback to fellow students on draft versions of their designs and gain feedback on your draft versions via the assignment forum. There will also be opportunities for you to present your sketches and plans for feedback in Week 11 - it is strongly recommended that you attend the live feedback sessions. Your submission will be a Portfolio document containing sketches and plans of your design and written responses to the assessment tasks. This assessment builds on what you have learnt in Topics 1-7 and relates directly to Topics 8, 9, 10 and 11. Full and detailed tasks for this assignment and the assignment rubric will be available from the Assessment Block in Moodle.

Weekly topic tasks will be available on the Weekly Activity Forum and are to be submitted as part of this assignment via the Moodle portal.

Further information regarding the assessment will be available on the unit Moodle site.

Assessment Due Date

Review/Exam Week Monday (11 Oct 2021) 11:45 pm AEST

Submission via Moodle portal.

Return Date to Students

26.10.2021 - students will be advised of any adverse circumstances that might delay this.

Weighting

40%

Minimum mark or grade

You must achieve 40% minimum in each assessment and an overall unit result of 50% to pass the unit.

Assessment Criteria

Marks will be allocated as specified in the assignment brief in the Assessment Block in Moodle.

Assessment Criteria are based on demonstration of the following:

- identification and creative resolution of design problems to develop spatial environments that meet stakeholder requirements
- research and evaluation of site constraints in order to develop an environmentally sustainable building
- critical thinking and problem solving to design an environmentally sustainable and aesthetic building
- constructive engagement in online discussion forums using a structured communication process when required

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
