BLAR12036 *Building Design 1*

Term 2 - 2023

Profile information current as at 26/03/2023 09:59 pm

All details in this unit profile for BLAR12036 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Building Design 1 will introduce you to creative design as a process of investigation, critical observation and experimentation. You will be introduced to the client briefing process as well as to basic aesthetic and sustainable design principles and their application to the design of low rise residential and commercial buildings. By engaging in a series of short design-based projects that involve critiquing, listening consciously, researching and creatively solving design problems, you will learn how to create spatial environments that are conducive to human well-being and that meet stakeholder requirements.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Evaluations

Feedback

A busy unit that requires students to keep to a study routine to stay on top of the learning material.

Recommendation

It is recommended that students have completed the level 1 units prior to engaging with this level 2 unit and set aside the recommended study time on a weekly basis.

Feedback from Student Evaluations

Feedback

The content of the weekly activities is helpful and useful for the assessments.

Recommendation

The weekly activities will continue to be offered.

Feedback from Student Evaluations

Feedback

The feedback sessions on the draft designs are really helpful.

Recommendation

The feedback sessions will continue to be offered to support students improve their design skills and apply theoretical content to their designs.
