

BLAR12055 *History and Theory of Building Design*

Term 3 - 2022

Profile information current as at 30/04/2024 12:23 am

All details in this unit profile for BLAR12055 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit provides a broad introduction to the history and theories of building design with a specific focus on the cultural importance, practical uses, construction, and stylistic designs of those buildings. The fundamental knowledge gained in this unit will underpin many design processes and decisions that you will encounter in your work as licensed building designers. The study topics and assessment tasks will develop skills that will enable you to identify and evaluate the successes and failures of historic and contemporary building types as well as the suitability of those buildings for conservation, re-use, or re-development.

Offerings For Term 3 - 2022

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Student Feedback

Feedback

The unit was full of interesting content and could be expanded to cover two units.

Recommendation

The unit will continue to cover the same content with assessments providing students the opportunity to explore buildings and design and construction history and theory further. Whilst the subject matter does span a lot of ground we are unfortunately unable to split the unit into two.

Feedback from SUTE Student Feedback

Feedback

The online test was thought provoking and sufficient time was provided to answer all questions.

Recommendation

The online test will continue to be offered in the current format and time limit.

Feedback from SUTE Student Feedback

Feedback

The weekly activity forum was useful as an overview that provides examples of buildings from different time periods, construction techniques and building styles and helped get work on the assessments started.

Recommendation

The weekly activity forum will continue to be offered to collate information relevant to the history and theory of building design.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Analyse the historical development of building design and construction
2. Explain culturally diverse values in buildings and spaces
3. Recognise, discuss and compare the major stylistic trends of building design around the world
4. Describe the historic and contemporary styles of building design in Australia
5. Constructively discuss and collaborate within an online team environment to explore and propose potential design solutions for the renovation and extensions of heritage buildings.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
