BLAR13037 *Building Design 2*

Term 2 - 2026

Profile information current as at 05/12/2025 03:03 pm

All details in this unit profile for BLAR13037 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will provide you with an understanding of environmentally appropriate design and planning solutions used in new and refurbished multi-story residential and commercial buildings. You will learn about energy and resource efficiency, universal access, building fabric and services audits, and statutory, planning and heritage considerations. You will be required to establish a mentoring relationship with a professional building engineer. You should have completed previous introductory studies in building design to ensure an adequate level of entry.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prereq: BLAR12036 or [BLAR14015 & BLAR13017]

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2026

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.

This information will be available on Monday 18 May 2026

- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Feedback

Feedback

The unit provides an interesting and challenging opportunity to apply National Construction Code (NCC), Australian Standards (AS) and Planning requirements and translate that into a design.

Recommendation

Students will continue to be required to apply NCC, AS and Planning requirements to the design of a high rise building.

Feedback from Student Feedback

Feedback

Students report enjoying the opportunity to combine high rise design with commercial and residential aspects.

Recommendation

The assessment brief will continue to require inclusion of a mix of uses in the high rise design.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.

This information will be available on Monday 18 May 2026

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
