

BLAR13042 *Building Sector Management*

Term 3 - 2018

Profile information current as at 15/05/2024 08:00 pm

All details in this unit profile for BLAR13042 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit comprises seven parts within three major topics covering: the development of Australia's design and construction industry; Workforce management; and Construction industry trends.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 3 - 2018

- Distance

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Weighting: 5%

2. **Written Assessment**

Weighting: 20%

3. **Written Assessment**

Weighting: 5%

4. **Written Assessment**

Weighting: 5%

5. **Written Assessment**

Weighting: 15%

6. **Written Assessment**

Weighting: 35%

7. **Presentation and Written Assessment**

Weighting: 15%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit evaluation

Feedback

Always helpful to have more detailed breakdown in assessment criteria.

Recommendation

Provide more detailed breakdown of assessment criteria.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. understand the history of the construction industry and its present structure
2. understand the importance of the construction industry in relation to the Australian and the international economy
3. understand the structure of government in Australia
4. understand the role of government as an industry manager and legislator, client, designer, constructor and user of construction products and services
5. understand government policies in relation to the future of the industry in science and technology; the government research structure; the role of government departments in the management of the industry
6. understand government and commercial sector initiatives to improve industry activity and practices in Australia and offshore
7. understand the history and classification of industry organisations, their characteristics, structures and typical aims, objectives and activities
8. understand the principles and practices of human resource planning, staff acquisition and team building
9. understand the history and present structure of the Australian industrial relations system, labour management practices, the enterprise bargaining system and the principles and practices of dispute and conflict resolution
10. understand emerging trends in areas of best industry practices, including innovation, information technology, business improvement, networks and alliances, procurement, asset management, the environment, regulatory reform and intellectual improvement

This unit forms part of accreditation by the AIB, AIBS and the NADB (BDAQ)

Textbooks and Resources

Textbooks

There are no required textbooks.

Additional Textbook Information

Please refer to the unit Moodle website for required readings.

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Microsoft Office or equivalent (wordprocessing) software for preparation of assessment items in the appropriate format
- Microphone and headset (and preferably a camera) to participate in Zoom sessions

Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)

For further information, see the Assessment Tasks.

Assessment Tasks

1 Assessment 1

Assessment Type

Written Assessment

Task Description

This assessment will take the form of an online collaborative forum.

Students are required to submit a short response (less than 300 words) on a contemporary article based on the role of the building and construction industry in Australia.

Assessment Due Date

Week 4 Monday (26 Nov 2018) 11:45 pm AEST

See Moodle instructions

Return Date to Students

Week 6 Monday (17 Dec 2018)

Within two weeks of submission.

Weighting

5%

Assessment Criteria

The following criteria will be used to evaluate the submissions.

- Level of understanding of the scope of work for relevant aspects as evidenced by the extent of information available;
- Evidence of comprehension of the key issues through the use of appropriate conventions and the accuracy and relevance of information provided;

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Submit a single collaborative forum posting as per instructions on Moodle.

Learning Outcomes Assessed

- understand the history of the construction industry and its present structure
- understand the importance of the construction industry in relation to the Australian and the international economy
- understand the role of government as an industry manager and legislator, client, designer, constructor and user of construction products and services
- understand government policies in relation to the future of the industry in science and technology; the government research structure; the role of government departments in the management of the industry
- understand the principles and practices of human resource planning, staff acquisition and team building
- understand the history and present structure of the Australian industrial relations system, labour management practices, the enterprise bargaining system and the principles and practices of dispute and conflict resolution
- understand emerging trends in areas of best industry practices, including innovation, information technology, business improvement, networks and alliances, procurement, asset management, the environment, regulatory

reform and intellectual improvement

Graduate Attributes

- Communication
- Critical Thinking
- Information Literacy
- Ethical practice

2 Assessment 2

Assessment Type

Written Assessment

Task Description

You are given two questions to answer in this assignment in relevant to Australian building sector management. For this, you may need to undertake your own research and collect information from **the Australian Bureau of Statistics** website as well as other sources of information.

Assessment Due Date

Week 5 Monday (10 Dec 2018) 11:45 pm AEST

Submit via the assessment portal on the Moodle home page

Return Date to Students

Week 6 Friday (21 Dec 2018)

Within two weeks of submission but before Christmas holidays

Weighting

20%

Assessment Criteria

The assessment will address the following attributes:

- Clarity of expression and readability
- Relevance of content to address Question 1 and Question 2
- Use of appropriate seminal references to support your facts, arguments and justifications
- Original thoughts put up into justifying the answers
- Overall presentation and ability to adopt to correct referencing style (Harvard style in this case) along with proper communication using correct spelling, grammar and punctuation
- Appropriate use of graphs, illustrations and other diagrams that visually support the context of your submission
- Demonstration of the core knowledge associated with this unit and its appropriate application

Your assessment should be produced in an electronic format.

Before or on the nominated due date, upload your work following the on-screen instructions.

Your submission will be processed through the similarity detection software, Turnitin. You may amend your work based on the detection report.

You must ensure that the submission is your own and that any cited work has been correctly referenced as per the CQU requirements.

- Ethical practice

3 Assessment 3- Research proposal

Assessment Type

Written Assessment

Task Description

Assessments A3, A6 and A7 are linked.

This assignment requires you to submit your research proposal. The research proposal is the first component of your formal research report (Assessment 6) and presentation (Assessment 7).

Choose your own topic (course related based in the Built Environment)

Choose a topic relating to the building sector and this unit, and submit your proposal.

A pass result in Assessment 3 indicates approval to continue your research for Assessment 6 and 7. You will be able to nominate if you wish to submit your article for formal publication at the end of term.

You should choose a topic that can clearly demonstrate a connection to the unit and be able to outline your proposal when you submit it for approval. Your proposal must contain aspects of research into the subject matter and can be based on a project that you worked on. Make sure that you have approval if your project is confidential or contains company sensitive information.

Make sure that it is a contemporary proposal and make it interesting. This assignment can be difficult to complete and pass if you do not start early and do not select a topic that is aligned with the unit or the built environment and that you are passionate about – **choose something that you have relevant data for and can combine with your day to day work or other activities.**

In order to use your own topic, you should seek approval for your topic no later than the due date. **If you submit early and need feedback, please post your request for early assessment to the Q&A Forum.**

Do not work with other students on selecting your topic - this is an individual assignment.

Once your topic has been accepted you can ask other students to provide feedback on your selection and provide feedback on your project.

Prepare a one-page written proposal on your topic of choice and submit your document before the due date.

Information on the presentation arrangements will be published in the Moodle News forum for this unit.

Assessment Due Date

Week 6 Friday (21 Dec 2018) 11:45 pm AEST

Submit via the assessment portal on the Moodle home page

Return Date to Students

Week 8 Friday (11 Jan 2019)

Within two weeks of submission.

Weighting

5%

Assessment Criteria

Assessment Criteria	Maximum Score

6 Assessment 6- Research Report

Assessment Type

Written Assessment

Task Description

Instructions:

This assignment requires you to submit your written research report previously submitted and approved in Assessment 3.

In Assessment 3 you identified and selected a topic for a research project. Your topic should be clearly aligned with the course and industry.

Do not work with other students this is an individual assignment and presentation.

Prepare a 10-page written report (see style guide for details) on your topic of choice and submit your document before the due date.

Your report should include at least the following sections:

BACKGROUND

A brief background of the study or the change in industry practice reported in this paper, including the context and motivation. Give some indication of what is already known about the topic.

PURPOSE

Describe the research question (that is, what you wanted to find out), hypothesis or the reason for the change in industry practice. What were you trying to understand better by doing this study? Why does it benefit the other participants in this course?

DESIGN/METHOD

Include a brief summary of what was done in the study or the change in industry practice, what data or evidence was collected and how it was analysed.

RESULTS

Summarise the key results of the study or the outcomes of the change in industry practice based on the data analysis.

CONCLUSIONS

What conclusions can you draw on the basis of the evidence presented and how do they compare to what is currently known about the topic? If the study is ongoing, what are the likely conclusions and impacts for the industry? Why would it benefit the industry to follow your suggestions and conclusions?

REFERENCES

A full list of references (Harvard) must be included (not part of the 10 page limit)

You should supplement your report with your own individual headings as required. Diagrams and tables should be used to further elaborate on your results and conclusions.

General pointers:

- Ensure that the quality of your written English is good. Be concise in your writing.
- Ensure that it is obvious what the industry problem/issue is that the research work is trying to address.
- The methodology must focus on what sort of intervention is proposed to address the problem and how you are going to measure success (or otherwise) of the intervention.
- The Outcomes must focus on the results or anticipated results and how you are going to interpret them.
- The work must make reference to the literature on the built environment or related industry.

Assessment Due Date

Week 12 Monday (4 Feb 2019) 11:45 pm AEST

Submit via the assessment portal on the Moodle home page

Return Date to Students

Exam Week Friday (15 Feb 2019)

After certification of grades or within two weeks of submission, whichever occurs later

Weighting

35%

Minimum mark or grade

Must achieve 50% in this assessment and an overall cumulative result of 50% or more from all assessments to pass this unit.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
