

BLAR14017 Built Environment Projects

Term 2 - 2021

Profile information current as at 27/04/2024 08:32 pm

All details in this unit profile for BLAR14017 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will learn by combining workplace opportunities and a guided research methodology to produce a folio of logged experience, critical reflection and local and international project analyses to grow your intellectual capital. You will use the university's graduate attributes to evaluate and report your professional interpersonal strengths and weaknesses using various modes of communication. Students who have successfully completed BLCN14036 or BLSV14014 should not enrol in this unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Difficulty in finding resources held within Moodle.

Recommendation

Microsoft Teams will be restricted to communication use. Moodle will undergo a major refresh before the next offering.

Feedback from Student feedback

Feedback

Assignment marking was rather slow and did not meet the two weeks I get.

Recommendation

The lecturer will take advantage of marking assistance if required to ensure the two-week target is met.

Feedback from Lecturer feedback

Feedback

Engagement of students within tutorials is extremely low, as has been the case in previous years.

Recommendation

Microsoft Teams will be used to improve communications in an attempt to improve student engagement.

Feedback from Lecturer feedback

Feedback

A recommended text will be removed for future offerings.

Recommendation

An improved study guide will be developed and updated yearly. MS Teams will circulate current articles and published papers as required.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Compile a professional quality folio of logged experience, critical reflections and local and international project analyses to grow your intellectual capital.
2. Evaluate and report your professional interpersonal strengths and weaknesses.
3. Discover solutions to routine and unfamiliar problems using the university's graduate attributes.
4. Use effectively a range of appropriate communication modes.

Assessment Tasks

1 Portfolio 1

Assessment Type

Portfolio

Task Description

This assessment will require you to research and respond to 3 tasks that explore building industry engagement, regulatory and procuring processes and issues.

The portfolio will require you to research, document and critically evaluate information for the following tasks:

1. Verification of pre-term professional practice as related to Industry accreditation requirements
2. Summarising and describing relevant industry activities within the context of a reflective model that demonstrates professional learning
3. Developing a project report for a selected issue confronting the building industry (stage 1).

Assessment Due Date

Week 5 Friday (13 Aug 2021) 11:45 pm AEST

It is recommended that your submissions in Moodle remain in draft form until you have viewed the Turnitin similarity report and made any necessary corrections to your referencing. Following this process you can make your final submission.

Return Date to Students

Week 6 Friday (27 Aug 2021)

Weighting

26%

Assessment Criteria

Your assessment should be produced in a word format as a professional report.

Before or on the nominated due date, upload your work following the on-screen instructions.

Your submission will be processed through the similarity detection software, Turnitin. You may amend your work based on the detection report.

You must ensure that the work is your own and that any cited work has been correctly referenced as per the CQU requirements.

The assessment will address the following attributes:

Show clarity and succinctness of expression.

Adequate coverage of topics discussed.

Supporting information correctly referenced.

Present original thoughts and opinions.

Communicate using correct spelling, grammar and punctuation.

Use graphs, illustrations and other graphics to visually support your submission.

Explain the core knowledge associated with this unit and show appropriate application of that knowledge.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
