General Information

Overview

In Construction Contract Administration you will be introduced to the principles of law, contract administration, and dispute resolution in the construction industry. In this unit, you will investigate a range of issues and claims arising in the construction process. In particular, you will develop an understanding of certain general conditions and legal concepts relevant to contracts such as unjust enrichment, frustration, waiver, estoppel, and specific performance. You will also gain knowledge of alternative dispute resolution methods and become familiar with the Building and Construction Industry Security of Payment Act.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Well-organized course content on Moodle site

Recommendation

We will continue to maintain and enhance the high level of organisation of the content on the Moodle site. This will include regular reviews and updates to ensure that the unit content remains user-friendly and easy to navigate.

Feedback from Self-reflection

Feedback

Invite an industry guest lecturer to speak on a unit topic

Recommendation

We will explore the option of inviting a guest lecturer with relevant industry experience to provide insights and practical knowledge on a selected topic. We will coordinate with the guest lecturer to ensure their presentation aligns with the unit's learning objectives. This will enhance students' learning by providing real-world insights, networking opportunities, and practical knowledge relevant to their future careers.
