

BMSC11007 *Medical Anatomy and Physiology 1*

Term 3 - 2019

Profile information current as at 06/05/2024 04:36 am

All details in this unit profile for BMSC11007 have been officially approved by CQUUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will learn to apply anatomical terminology and the concept of levels of organisation when describing the human body and its systems. You will describe the anatomical features, function and physiological regulation of the musculoskeletal, cardiovascular, lymphatic, digestive, respiratory, nervous, endocrine, urinary, and reproductive human body systems. In addition, you will study the anatomical and physiological relations involved in human movement including the effects of use, disuse and ageing on the pelvic region, perineum and lower limbs.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

This unit is for students from these courses only: CB66 - Bachelor of Health Science (Allied Health), CB84 - Bachelor of Occupational Therapy (Honours), CB85 - Bachelor of Physiotherapy (Honours), CB86 - Bachelor of Podiatry (Honours), CB87 - Bachelor of Speech Pathology (Honours).

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 3 - 2019

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Assessment Overview

1. **Online Quiz(zes)**

Weighting: 50%

2. **Practical Assessment**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback and self-reflection

Feedback

In online quizzes, the short text-entry response computer-marked questions often require manual re-scoring. This delays feedback to students and is labour-intensive to administer.

Recommendation

Revise online quizzes to replace these text-entry questions with question types that do not require manual scoring or re-scoring.

Feedback from Student and staff feedback

Feedback

Student appreciation for end of term practical assessment preparation

Recommendation

Continue to deliver an end of term preparation for the practical assessment on all campuses.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe the anatomical features, function and physiological regulation of the cells, tissues, and organs of the musculoskeletal, cardiovascular, lymphatic, digestive, respiratory, nervous, endocrine, urinary, and reproductive human body systems
2. Identify and describe anatomical structures of the normal human body focusing on musculoskeletal and neurovascular structures of the pelvis, perineum, and lower limbs
3. Explain the anatomical and physiological relations involved in human movement
4. Describe the human body's response to use, disuse and aging across the lifespan
5. Apply anatomical terminology and the concept of levels of organisation when describing the human body and its systems.

This unit was created to meet the accreditation requirements of the allied health courses in relation to musculoskeletal and neurovascular anatomy and physiology.

Schedule

Week 1 - 11 Nov 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Introduction, Cells & Tissues
Musculoskeletal System 1: Bone

Gray: Ch 1 - The Body (pp 1-4)
Martini: Ch 4 - The Tissue Level of Organisation (pp 109-134)
Martini: Ch 6 - Osseous Tissue & Bone Structure (pp 170-193)

Week 2 - 18 Nov 2019

Module/Topic	Chapter	Events and Submissions/Topic
Musculoskeletal System 2: Muscle Musculoskeletal System 3: Joints	Martini: Ch 4 - The Tissue Level of Organisation (pp 134-136) Martini: Ch 10 - Muscle Tissue (pp 280-285, 302-305, 313-315) Martini: Ch 11 - The Muscular System (pp 323-327)	

Week 3 - 25 Nov 2019

Module/Topic	Chapter	Events and Submissions/Topic
Cardiovascular System & Lymphatic System	Gray: Ch 3 - Thorax (pp 180-210: middle mediastinum) Martini: Ch 22 - Lymphatics (pp 765-766)	Quiz 1 opens on Friday Week 3, 9:00 AM (AEST) and closes on Friday Week 4, 17:00 PM (AEST).

Week 4 - 02 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
Respiratory System & Gastrointestinal System	Gray: Ch 3 - Thorax (pp 163-180: pleural cavities) Gray: Ch 4 - Abdomen (pp 310-342: organs-abdominal viscera)	

Vacation Week - 09 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 5 - 16 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
Nervous System and Endocrine System	Gray: Ch 1 - The Body (pp 31-48: nervous system) Gray: Ch 2 - Back (pp 99-110: spinal cord) Gray: Ch 8 - Head & Neck (pp 876-893: meninges, brain and its blood supply) Martini: Ch 4 - The Tissue Level of Organisation (pp 137-139) Martini: Ch 12 - Neural Tissue (pp 375-380, 386-404)	

Week 6 - 23 Dec 2019

Module/Topic	Chapter	Events and Submissions/Topic
Urinary System & Reproductive System	Gray: Ch 4 - Abdomen (pp 373-387: posterior abdominal region viscera) Gray: Ch 5 - Pelvis and Perineum (pp 460-481: pelvic viscera)	Quiz 2 opens Friday Week 6, 9:00 AM (AEST) and closes on Friday Week 7, 17:00 PM (AEST).

Week 7 - 06 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: Pelvis & Perineum	Gray: Ch 5 - Pelvis & Perineum (pp 423-460, 481-526: remainder of chapter 5)	

Week 8 - 13 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: Hip & Gluteal Region	Gray: Ch 6 - Lower Limb (pp 535-583)	

Week 9 - 20 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: Thigh	Gray: Ch 6 - Lower Limb (pp 606-633: regional anatomy of the knee and leg)	

Week 10 - 27 Jan 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: Knee & Leg	Gray: Ch 6 - Lower Limb (pp 606-633: regional anatomy of the knee and leg)	

Week 11 - 03 Feb 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: Ankle & Foot Residential School (Wed - Fri: 5/2 - 7/2) Practical Assessment (Saturday: 8/2)	Gray: Ch 6 - Lower Limb (pp 633-662: regional anatomy of the foot)	Quiz 3 opens on Friday Week 11, 9:00 AM (AEST) and closes on Friday Week 12, 17:00 PM (AEST). Compulsory Residential School and Practical Assessment in ROK: Wednesday - Saturday, Week 11

Term Specific Information

Supplementary Practical Assessments (if given at certification of grades) will be held in ROK only.

Assessment Tasks

1 ONLINE QUIZZES

Assessment Type

Online Quiz(zes)

Task Description

An understanding of human anatomy and physiology is essential to many health professions. The fundamentals of this knowledge must be learnt and understood. The various health professions you have chosen to study have selected the knowledge and concepts taught in this unit as relevant to your future scope of practice.

1. There will be three separate online quizzes to assess your knowledge of the unit material.
2. The number of questions and weighting for each quiz is outlined below.
3. You are allowed three attempts on each quiz. It is not compulsory to attempt the quiz three times. The attempt where you achieved the highest grade will serve as your final score for that quiz.
4. There is a minimum mark requirement in the assessment task: 50% of the cumulative score of all three quizzes (1-3).
5. In the absence of an approved extension, there will be no opportunity to complete the task after the assigned date.
6. Dates that each quiz open and close are outlined below. Each quiz must be completed on or before the due date listed.

QUIZ	TOPIC	QUESTIONS	WEIGHTING	TIME/DATE QUIZ OPENS	TIME/DATE QUIZ CLOSES
1	Week 1,2,3	20	10%	9:00 AM (AEST) Friday Week 3	17:00 PM (AEST) Friday Week 4
2	Week 4,5,6	30	15%	9:00 AM (AEST) Friday Week 6	17:00 PM (AEST) Friday Week 7
3	Week 7,8,9,10,11	50	25%	9:00 AM (AEST) Friday Week 11	17:00 PM (AEST) Friday Week 12

- Information Technology Competence

2 PRACTICAL ASSESSMENT

Assessment Type

Practical Assessment

Task Description

In the clinical context, health professionals are expected to have in-depth knowledge and understanding of anatomical structures, physiological systems and their interrelation. In a university simulation setting, you will take part in practical learning activities with anatomical models, bones and real plastinated human bodies for the purpose of familiarization with these structures.

In this practical assessment you will:

1. Identify anatomical structures of the skeletal, muscular and neurovascular systems of the spine, pelvis, perineum and lower limb.
2. Describe the different functions of human anatomy.
3. Explain the individual variations of human anatomy.
4. Explain how anatomy and function are interrelated.

The practical assessment is worth 50% of your overall mark for the unit. It consists of approximately 20 stations set up around the laboratory, each with specimens including models, bones and plastinates where structures will be clearly labelled. At each station, there will be a station identifier that lists the questions. Questions in the practical assessment will consist of brief identification or function of labelled structures and associated structures, innervation and blood supply. Questions will cover bones, muscles, joints, nerves, blood vessels, viscera and supporting structures in the body systems, pelvis, perineum and lower limb. Students are responsible for all content covered in class for the entire term, that is visible on the specimens that we have, with particular emphasis placed on the practical activities.

The practical assessment is approximately 1 hour in duration. There will be 1 student at each station at a time. After a set period of time, you will rotate to the next station and repeat this process until you have been to all stations. You will

be given an answer sheet on which to write your answers. The practical assessment is closed book so the only things you will be allowed to have on you are pens (blue or black ink only), your answer sheet and photo ID (e.g., student ID or driver's license).

Assessment Due Date

All students take the practical assessment in person in Week 11 in ROK, following the compulsory residential school. The exact date and time will be posted in Moodle.

Return Date to Students

Within 2 weeks of assessment date

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

For the practical assessment, your responses are scored according to the following criteria:

- correctness, relevance and completeness of the response to the question asked
- correct spelling and use of anatomical and physiological terminology

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
