

BMSC11008 *Medical Anatomy and Physiology 2*

Term 2 - 2020

Profile information current as at 04/05/2024 06:00 pm

All details in this unit profile for BMSC11008 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will learn to apply anatomical terminology and the concept of levels of organisation when describing the human body and its systems. You will describe the anatomical features, function and physiological regulation of the musculoskeletal, cardiovascular, nervous and integumentary human body systems. In addition, you will study the anatomical and physiological relations involved in human movement including the effects of use, disuse and ageing on the head and neck, thorax, abdomen, back and upper limbs.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

This unit is for students from these courses only: CB66 - Bachelor of Health Science (Allied Health), CB84 - Bachelor of Occupational Therapy (Honours), CB85 - Bachelor of Physiotherapy (Honours), CB86 - Bachelor of Podiatry (Honours), CB87 - Bachelor of Speech Pathology (Honours).

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2020

- Bundaberg
- Mixed Mode
- Rockhampton
- Sydney

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Online Quiz(zes)**

Weighting: 50%

2. **Online Test**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student and staff feedback

Feedback

Student appreciation for end of term practical assessment preparation across all campuses.

Recommendation

Continue to deliver an end of term preparation for the practical assessment across all campuses where the unit is offered on campus.

Feedback from Self reflection

Feedback

Recorded tutorials with anatomy models used in the practical assessments with specific focus on content discussed in lectures

Recommendation

Keep and/or revise recorded tutorials for students to use as a study tool.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe the anatomical features, function and physiological regulation of the cells, tissues, and organs of the musculoskeletal, cardiovascular, nervous and integumentary human body systems
2. Identify and describe anatomical structures of the normal human body focusing on musculoskeletal and neurovascular structures of the head and neck, thorax, abdomen, back and upper limbs
3. Explain the anatomical and physiological relations involved in human movement
4. Describe the human body's response to use, disuse and ageing across the lifespan
5. Apply anatomical terminology and the concept of levels of organisation when describing the human body and its systems.

This unit was created to meet the accreditation requirements of the allied health courses.

Schedule

Week 1 - 13 Jul 2020

Module/Topic	Chapter	Events and Submissions/Topic
Introduction and Terminology Review: The Role of the Cardiovascular System & Nervous System in Body Maintenance and Physiological Regulation Regional Anatomy: The Shoulder	Gray: Ch 1 - The Body (pp 1-48). Gray: Ch 7 - Upper Limb (pp 673-738). <i>Read conceptual overview until regional anatomy of the arm.</i> Martini: Ch 21 - Blood Vessels and Circulation (pp 774-821).	

Week 2 - 20 Jul 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Arm and Elbow	Gray: Ch 7 - Upper Limb (pp 739-760). <i>Read regional anatomy of the arm.</i>	

Week 3 - 27 Jul 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Forearm and Wrist	Gray: Ch 7 - Upper Limb (pp 761-782). <i>Read regional anatomy of the forearm.</i>	

Week 4 - 03 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Hand Discussion: Upper Limb Function and the effects of use and disuse across the Lifespan	Gray: Ch 7 - Upper Limb (pp 782-809). <i>Read regional anatomy of the hand.</i>	<u>PROGRESS QUIZ 1</u> Opens: Friday, Week 4 at 9:00 AM (AEST)

Week 5 - 10 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Trunk - Bones and Joints	Gray: Ch 2 - Back (pp 51-85). <i>Read conceptual overview until regional anatomy of back musculature.</i> Gray: Ch 3 - Thorax (pp 144-151). <i>Read regional anatomy of the thoracic wall: skeletal framework.</i>	<u>PROGRESS QUIZ 1</u> Closes: Friday, Week 5 at 5:00 PM (AEST)

Vacation Week - 17 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 6 - 24 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Trunk - Muscles	Gray: Ch 2 - Back (pp 86 - 101). <i>Read regional anatomy of back musculature.</i> Gray: Ch 3 - Thorax (pp 151-165). <i>Read intercostal spaces until pleural cavities.</i> Gray: Ch 4 - Abdomen (pp 278-283, 367-373). <i>Read sections on anterolateral muscles and posterior abdominal wall.</i>	

Week 7 - 31 Aug 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Trunk - Neurovascular Supply	Gray: Ch 3 - Thorax (pp 166-235). <i>Read sections on pleural cavities and mediastinum.</i> Gray: Ch 4 - Abdomen (pp 300-409). <i>Read sections on abdominal viscera and posterior abdominal region and surface anatomy.</i> Martini: Ch 23 - The Respiratory System (pp 881-925). Martini: Ch 24 - The Digestive System (pp 931-978).	<u>PROGRESS QUIZ 2</u> Opens: Friday, Week 7 at 9:00 AM (AEST)

Week 8 - 07 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Regional Anatomy: The Head and Neck - Bones and Joints

Gray: Ch 8 - Head and Neck. *Read conceptual overview AND regional anatomy sections on skull, cranial cavity, bony orbit, temporomandibular joint, skeletal framework sections and teeth.*

PROGRESS QUIZ 2

Closes: Friday Week 8 at 5:00 PM (AEST).

Week 9 - 14 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Head and Neck - Muscles Discussion: Head and Neck Function and effects of use and disuse across the lifespan	Gray: Ch 8 - Head and Neck. <i>Read regional anatomy sections on muscles of face, orbit, mastication, neck and tongue.</i>	<u>PROGRESS QUIZ 3</u> Opens: Friday, Week 9 at 9:00 AM (AEST)

Week 10 - 21 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Head and Neck - Vascular Supply	Gray: Ch 8 - Head and Neck . <i>Read regional anatomy sections on meninges and blood supply of brain, face, scalp, orbit, neck, pharynx, larynx and nasal cavities.</i>	<u>PROGRESS QUIZ 3</u> Closes: Friday, Week 10 at 5:00 PM (AEST).

Week 11 - 28 Sep 2020

Module/Topic	Chapter	Events and Submissions/Topic
Regional Anatomy: The Head and Neck - Nerve Supply	Gray: Ch 8 - Head and Neck . <i>Read regional anatomy sections on cranial nerves and innervation of face, scalp, orbit, pharynx, larynx, nasal cavities and oral cavity.</i>	<u>PROGRESS QUIZ 4</u> Opens: Friday, Week 11 at 9:00 AM (AEST)

Week 12 - 05 Oct 2020

Module/Topic	Chapter	Events and Submissions/Topic
Review (self-directed) and Final Assessment		<u>PROGRESS QUIZ 4</u> Closes: Friday, Week 12 at 5:00 PM (AEST). <u>All Students</u> : Final Assessment. Date: TBA

Review/Exam Week - 12 Oct 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Term Specific Information

Term 2 has transitioned to online learning.
Weekly lectures, tutorials and practical sessions will be conducted via zoom.

Assessment Tasks

1 PROGRESS QUIZZES

Assessment Type

Online Quiz(zes)

Task Description

An understanding of human anatomy and physiology is essential to many health professions. The fundamentals of this knowledge must be learnt and understood. The various health professions you have chosen to study have selected the knowledge and concepts taught in this unit as relevant to your future scope of practice.

1. There will be four separate online quizzes to assess your knowledge of the unit material.

2. The topic examined, weighting and the dates that each quiz open and close are outlined below. Each quiz must be completed during the specified times.
3. In the absence of an approved extension, there will be no opportunity to complete the task after the assigned date.
4. You are allowed three attempts on each quiz. It is not compulsory to attempt the quiz three times. Your average score, of your quiz attempts, will serve as your final score for that quiz.
5. There is a minimum mark requirement in the assessment task: 50% of the cumulative score of all four quizzes (1-4).

QUIZ NUMBER	TOPIC EXAMINED	WEIGHTING	TIME/DATE QUIZ OPENS	TIME/DATE QUIZ CLOSES
1	Weeks 1,2,3,4	15%	9:00 AM (AEST) Friday Week 4	17:00 PM (AEST) Friday Week 5
2	Weeks 5,6,7	15%	9:00 AM (AEST) Friday Week 7	17:00 PM (AEST) Friday Week 8
3	Weeks 8,9	10%	9:00 AM (AEST) Friday Week 9	17:00 PM (AEST) Friday Week 10
4	Weeks 10,11	10%	9:00 AM (AEST) Friday Week 11	17:00 PM (AEST) Friday Week 12

Learning Outcomes Assessed

- Describe the anatomical features, function and physiological regulation of the cells, tissues, and organs of the musculoskeletal, cardiovascular, nervous and integumentary human body systems
- Identify and describe anatomical structures of the normal human body focusing on musculoskeletal and neurovascular structures of the head and neck, thorax, abdomen, back and upper limbs
- Explain the anatomical and physiological relations involved in human movement
- Describe the human body's response to use, disuse and ageing across the lifespan
- Apply anatomical terminology and the concept of levels of organisation when describing the human body and its systems.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence

2 FINAL ASSESSMENT

Assessment Type

Online Test

Task Description

In the clinical context, health professionals are expected to have in-depth knowledge and understanding of anatomical structures, physiological systems and their interrelation.

This assessment will be based on the material covered in lectures, tutorials and practicals from the entire term. The final assessment is worth 50% of your overall mark for the unit. It consists of approximately 100 questions where students will be required to look at images of anatomical models and bones and identify labelled structures, discuss function, innervation and blood supply of the labelled structures or associated structures. Questions will cover bones, muscles, joints, nerves, blood vessels, viscera and supporting structures in the upper limb, trunk and head and neck. Students are responsible for all content covered in class for the entire term, that is visible on the specimens from the practical sessions (conducted via zoom) with particular emphasis placed on the practical activities. Photographs of models and bones from the practical sessions will be provided to students for study and preparation.

Assessment Due Date

Details will be available on this unit's Moodle site

Return Date to Students

Within 2 weeks of assessment date

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

For the final assessment, your responses are scored according to the following criteria:

- correctness, relevance and completeness of the response to the question asked
- correct spelling and use of anatomical and physiological terminology

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
