Assessment Tasks

1 First Assessment

Assessment Type

Learning logs / diaries / Journal / log books

Task Description

The first assessment task consists of **Three (3)** reflective journal entries. Each journal entry is worth a maximum 10% towards your overall grade (i.e. 3 Journal Entries x 10% = 30%).

Reflective journals are concerned with demonstrating reflection on various aspects of your workplace experience.

Your task is to complete and submit **all** three reflective journal entries as outlined below.

Journal Entry 1 – Reflection on workplace etiquette (max. 500 words)

Workplace etiquette differs across industries and organisations but is typically the socially acceptable ways we interact with one another and behave in our workplace. You are to reflect on workplace etiquette in your place of work explaining how and why it has impacted on your interactions with others and your own behaviour. What specifically have you done and how have you handled these situations? Some additional areas you can direct your thoughts include the following: What are some acceptable standards of communication and employee interaction permitted in your workplace? Feel free to use examples to help you explain this. Does your workplace have a dress code? Explain why or why not. What expectations did you have with regard to workplace etiquette before starting in the work placement? Has this changed in any way since you started in the work placement? If so, how?

Journal Entry 2 – Reflection on workplace skills and knowledge (max. 500 words)

Workplace skills and knowledge are fundamental for any person to succeed in the workplace. You are to reflect on the importance of knowledge and skills in your place of work, and specifically address how and why you have utilised this knowledge and skills. Some additional areas you can direct your thoughts include the following: What type of activities and tasks have you completed during your work placement? Can you link any of these back to your university studies? Feel free to use examples to help you explain this. What are the personal qualities you have been able to demonstrate in the workplace and how did you do this? What additional knowledge and skills have you gained through your workplace learning? From what you have learnt, what do you think employers value most in their employees?

Journal Entry 3 – Reflection on workplace experience (max. 500 words)

You are to reflect on your workplace experience. How and why has your workplace experience been a positive or negative one? Was it easy or difficult for you adjusting to the work environment? What areas do you think you have done well in? Which areas do you think you could improve on? Based on your workplace experience, identify areas of further learning and/or professional development (i.e. knowledge, skills and qualities) that might provide progression into your chosen career.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
