General Information

Overview

Employers are seeking work-ready graduates who can apply their university-developed knowledge, skills and attributes in diverse work environments and new contexts. This unit will provide you with the opportunity to consolidate knowledge of your chosen profession/discipline and demonstrate graduate attributes through an authentic learning experience of your choice: work integrated learning, global experience or project. The work integrated learning creates an opportunity for you to gain practical work experience. You will apply discipline knowledge and critical thinking skills to propose creative, ethical and innovative solutions within the workplace. The global experience creates an opportunity for you to engage in a 2-6 week international program. You will apply cross-cultural knowledge and critical thinking skills to propose creative, ethical and innovative solutions in response to global challenges. The project option creates an opportunity for you to complete a scaffolded investigation (supervised project) at an advanced level. You will apply discipline knowledge and critical thinking skills to propose creative, ethical and innovative solutions to a workplace or community issue related to your discipline area. We encourage you to enrol early to receive further information about each experience and begin the selection process. The work integrated learning and global experience options are subject to availability and you are required to enrol three months prior to the start of Term to participate in these options.

- What type of activities and tasks you will be doing at the work placement?
- Did you read the literature related to these activities/tasks? Please provide brief description of the related literature (journal article(s), book chapter, research report) that you have already read in preparation toward your work placement. Note that it is necessary to gain a basic understanding of the literature related to your workplace activities and tasks.
- Do you have prior experience that you will be able to demonstrate while doing activities at the workplace?
