Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

The good aspects of the student unit delivery and learning experience should be continued. However, the enrollment process should be improved in the new unit BUSN13004 Professional practice and experience.

Recommendation

The enrollment process is a focus area in the new unit BUSN13004 Professional practice and experience which replaces this unit BUSN19021 Project as of term 1 2021. The approval process for the students wishing to enroll in the project option of BUSN13004 will no longer involve a minimum pre-requisite GPA.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate the ability to select a topic suitable for major project work
2. Justify the project topic based on secondary information searches and preliminary primary research
3. Formulate project schedules from initial problem definition through to the presentation of final information
4. Draft and complete proposal, progress and final reports for the project
5. Develop practical skills of project management through the implementation of a 'real world' project of your choice.
