General Information

Overview

This unit provides the essential skills and techniques for designing, implementing and evaluating research in business contexts. It provides an in-depth introduction to the critical thinking and planning required in the initial stages of a thesis or research project. You will undertake research problem definition, design a research project, development of a literature review, consider qualitative and quantitative methods, measurement concepts, qualitative and quantitative data analysis, reporting and presentation of results with the final outcome of the unit being the development of a research proposal. This unit is designed as the pre-requisite for the work you will undertake in your final year capstone unit Professional Project.
