General Information

Overview

A professional internship or work placement provides you with experience in a professional environment relevant to your chosen discipline. The process of combining theoretical knowledge with practical experience will assist you in understanding the relevance of material presented during discipline studies and further expand your professional knowledge and work-readiness with practical experience. Following a detailed application and selection process in the Term prior to your BUSN20020 enrolment term, once you are placed with a host organisation, you will be engaged in work-integrated learning (WIL) while being supported by the School. You will undertake applied organisational research with a focus on your host organisation's approach to systems, processes and strategies related to your discipline, i.e. human resource management, marketing, management or accounting, with a view to improving organisational effectiveness. You will also be required to document and reflect on your work placement experiences to assess professional growth, recognise and evaluate your strengths and weaknesses, and develop an action plan for future professional development. This unit involves a company placement organised and coordinated by a number of partner Internships organisations, external companies contracted by CQU to manage this aspect of the Internship unit for postgraduate Business students. Because of the involvement of these external companies, this unit is only available to full-time on-campus international students normally based on the Melbourne, Sydney and Brisbane campuses. This unit involves some on-campus classes as well as an intensive placement in a host organisation. The unit assessment centres upon an organisational analysis and applied research project on a particular aspect of your host organisation's operations.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback.

Feedback

It is important to provide up-to-date examples and literature to students.

Recommendation

Currently, the slides contain few examples as these are provided by staff in the classroom - it is recommended to complement these with asynchronously available up-to-date written examples available on Moodle. Some of the frameworks used in this unit are well established and thus their original publications are 'old' - however, more recent literature applying those frameworks to current businesses will be included in the unit.
