General Information

Overview

Researching business problems is an important part of professional practice and being a successful business manager and leader. Business Research Project is an independent 12cp research unit that draws upon your area of specialisation and knowledge of research methods. You will conduct independent research in an appropriate area of relevance to your specific Masters Course. This unit requires independence and autonomy in review and analysis of literature and secondary data sources. You will identify the topic, review existing literature, develop the research questions, define the methodology, collect and analyse the data, and write up the final business project, culminating in conclusions that highlight your answer to your research questions and recommendations for practice and future research.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Informal student feedback; tutor feedback.

Feedback

Viva voce nerves. This is the first time for most students to complete a viva voce of this type and students often state that they are nervous.

Recommendation

The CareerHub 'Interview 360' is an AI-based interview simulator that allows students to practice job interviews and receive AI feedback on their performance, alongside tips on what to improve. A custom designed viva voce will be produced in 'Interview 360' that will allow students to practice responding to typical viva voce questions.
