Task Description

Assessment 2 - Application for an arts grant.

Task Description - 50%

You will implement an arts-based business that you will then utilise to develop a grant application for funding support. The business will follow all of the legal and financial requirements of a professional practice. You will

1. create a name for the business
2. investigate Pty Ltd, Trust and NFP (not for profit) as the business model, then choose the one that best suits your needs
3. look at the online application for an ABN - then create a hypothetical number for your business to use.

You will then be expected to investigate the grants that your hypothetical company could apply for. You must consider investigating Arts Queensland Grants, but you might also want to consider national and international grants. You will be able to discuss this with your lecturers and then decide the best funding/grants for your particular hypothetical business. You will then hypothetically apply for a grant. You will be expected to supply all documentation that the grant application requires. This is what you will submit as your assessment, a grant application for a hypothetical arts business. The length will be determined by the grant that you are applying for. This can be presented as a pdf or word document. NB: There is no specific word count, this will be determined by the requirements of the funding application

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
