CHEM11044 Chemical Reactions

Term 2 - 2026

Profile information current as at 05/12/2025 02:06 pm

All details in this unit profile for CHEM11044 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will provide you with an understanding of the fundamental principles of chemical kinetics, thermodynamics, redox chemistry, equilibrium, pH, basic spectroscopy and organic reactions and mechanisms. You will learn about reactions and how they can be manipulated. You will be introduced to a range of chemical calculations involving rates, cell potentials, equilibrium constants, and pH, as well as techniques for analysing spectral data for chemical structure determination. This unit will provide a strong foundation for further studies in analytical and materials sciences, physical and organic chemistry. This unit has a compulsory residential school. These laboratory sessions will emphasise laboratory safety and compliance, and introduce you to skills relating to sample preparation, data collection, synthesis, spectroscopic analyses and report writing.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisite: CHEM11043 Atoms, Molecules and Matter

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2026

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Students suggested that more staff be available during the residential school to effectively address their specific questions, given the limited time available.

Recommendation

It is recommended that the Unit Coordinator discuss the students' suggestions with the Head of Course to seek further clarification and advice regarding the required number of students per teaching staff during the residential school, to ensure we provide sufficient support to students.

Feedback from SUTE

Feedback

Students suggested that the recorded lectures need to be refreshed and updated.

Recommendation

It is suggested that the Unit Coordinator discuss students' suggestions with the Head of Course to seek further advice and assistance in organising a suitable time or schedule to refresh the recorded lectures and to address the rearrangement of teaching content over the 12 weeks.
