CHEM12077 *Food Science & Analysis*

Term 2 - 2022

Profile information current as at 18/05/2022 06:50 am

All details in this unit profile for CHEM12077 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will learn theoretical and practical applications in food science and analysis. You will become familiar with laboratory compliance procedures, interpret risks and appropriate risk-minimisation approaches. The theoretical concepts will include an overview of food science, systems and sustainability, food chemistry and composition, food quality and safety, food preservation, food additives, foods and food products, fermentation, microorganisms, biotechnology, food packaging, environmental concerns and processing, and food regulation and labelling. Contents covered in this unit will provide a sturdy basis for studies in food science, systems and sustainability. Contents covered in this unit will enable you to be able to understand the implications of food science and analysis associated with manufacturing, environment, biotechnology and regulations. Accompanying the theory, you will enhance your practical skills by learning the operation and maintenance of common instrumentation used for food analysis, perform wet chemical analysis, data interpretation and appropriate communication of the results.

Offerings For Term 2 - 2022

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Assessment Overview

1. **Written Assessment**

Weighting: 20%

2. **Practical and Written Assessment**

Weighting: 30%

3. **Take Home Exam**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Students thoroughly enjoyed the practical component and found it very useful and beneficial through working in small group environment.

Recommendation

It is recommended that the high standards set for residential school offered in this unit will be maintained and continued going forward.

Feedback from SUTE

Feedback

Students found the contents to be interesting, easy to navigate, and relevant to their qualification and future career.

Recommendation

It is recommended that the quality of the contents will be maintained through continuous refinement as appropriate and required.

Feedback from SUTE

Feedback

Students felt that the teaching team to be friendly, helpful, knowledgeable, and prompt in responding to questions via email and Moodle forums.

Recommendation

It is recommended that the high standards set for engaging effectively and in timely manner towards supporting student learning will be maintained going forward.

Feedback from SUTE, Student Emails and Moodle Forums

Feedback

Students felt that their learning experience could be improved by implementing a weekly open Q&A session.

Recommendation

This will be addressed through more learner-teacher engagement via the implementation of weekly 1 hour Q&A Zoom session.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Evaluate the importance of food systems, sustainability, composition, quality and safety
2. Critically discuss the application of food preservation, food product processing, biotechnology and food packaging
3. Discuss the legislation, regulation policies and guidelines relevant to labeling and manufacturing of food
4. Demonstrate skills in manipulation of laboratory apparatus, careful and systematic observation, precise recording and communication of experimental data.
