

Profile information current as at 05/05/2024 06:22 pm

All details in this unit profile for CHIR13007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit builds on other pathology related units in the course, as well as Clinical Assessment and Diagnosis 1. You will study non-musculoskeletal patient presentations, starting from the point of first contact with the patient, through history taking and physical examination, and finally to the formulation of a diagnosis. Through this process, you will also continue to develop your knowledge of common pathologies of each body system. By the end of the unit, your problem solving, analytical and critical thinking skills will have improved.

Details

Career Level: Undergraduate

Unit Level: Level 3 Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisite: CHIR13010 Systems and Pathology

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the Assessment Policy and Procedure (Higher Education Coursework).

Offerings For Term 2 - 2021

- Brisbane
- Mackay
- Sydney

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

Metropolitan Campuses

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. Online Quiz(zes)

Weighting: 20%

2. Practical Assessment

Weighting: 30%

3. Written Assessment

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Evaluation

Feedback

Many students commented that they found the videos and practical labs helpful for cementing the material.

Recommendation

It is recommended that ongoing work be dedicated to further improve recorded content and enhance the student learning experience.

Feedback from Student Evaluation

Feedback

Students reported that the content was very detailed and easy to understand while aligning with Systems and Pathology (CHIR13010).

Recommendation

It is recommended that further work be dedicated to further align this unit with the new content of Systems and Pathology (CHIR13010).

Feedback from Student Evaluation

Feedback

Some students would have appreciated having earlier access to the material.

Recommendation

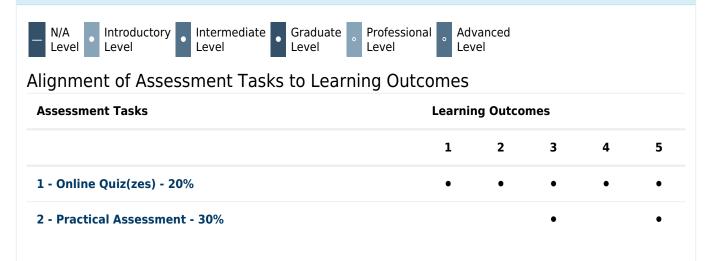

It is recommended that all of the new content that was developed be uploaded at the start of term for the next offering.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

- 1. Integrate your knowledge of anatomy, physiology, biochemistry and pathology with the clinical assessment of disease states
- 2. Explain the pathophysiological basis for a range of symptoms and signs
- 3. Demonstrate competent history taking skills and physical examination procedures
- 4. Develop a differential diagnosis based on history and examination findings
- 5. Apply the appropriate examination protocol to pathological disease states.

Assessment Tasks

1 Online Quizzes

Assessment Type

Online Quiz(zes)

Task Description

Five on-line quizzes will need to be completed. Each quiz will be worth 4%. The total allocation for this component 20% of the unit total grade.

Each will be available for a specified period of time.

There will be no extension due to unforeseen technical problems or Internet connectivity, so please do not leave it to the end of the availability period to complete.

You will be allowed one attempt only for each quiz, which will need to be completed within a 20-30 minute period of time.

Number of Quizzes

5

Frequency of Quizzes

Fortnightly

Assessment Due Date

Due Fridays between 08:00am and 01:00 pm weeks 3, 5, 8, 10, 12.

Return Date to Students

Marks will be released after quiz closes.

Weighting

20%

Minimum mark or grade

50%

Assessment Criteria

Student able to demonstrate:

- 1. Understanding of the relationship between anatomy, physiology, pathology and diagnosis.
- 2. Understanding of the pathophysiological basis for a range of symptoms and signs.
- 3. Understanding indications for a system examination and the implications of its findings.
- 4. Knowledge of common clinical investigations of body systems and familiarity with management options of their disorders.

Submission

Online

Learning Outcomes Assessed

- Integrate your knowledge of anatomy, physiology, biochemistry and pathology with the clinical assessment of disease states
- Explain the pathophysiological basis for a range of symptoms and signs
- Demonstrate competent history taking skills and physical examination procedures

- Develop a differential diagnosis based on history and examination findings
- Apply the appropriate examination protocol to pathological disease states.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

2 PRACTICAL ASSESSMENT

Assessment Type

Practical Assessment

Task Description

The Practical assessments is a two part OSCE.

Part 1 is in week 6 and includes assessment of taking vitals, and physical examination skills of the cardiovascular system and the respiratory systems.

Part 2 is in week 12 and includes assessment of the physical examination skills of the Gastrointestinal/Genitourinary, Lymphoid/Hematopoietic, and Endocrine systems. Each part is worth 15%. This component is worth 30% of the unit total grade.

This examination will assess your competency in performing the following tasks:

- 1. Observation of the patient for a specified condition or clinical sign
- 2. Assessment of vital signs
- 3. Examination of cardiovascular, respiratory, digestive, endocrine, lymphatic, haematopoietic and integumentary systems:
- a. demonstrate assessment protocol of a patient for a specific condition (a list of conditions will be provided)
- b. demonstrate skills in palpation, percussion and auscultation

Assessment Due Date

The test will be conducted over 2 separate parts: In Week 6 during Practical Class and in Week 12 (refer to timetable).

Return Date to Students

1 week after the task is conducted

Weighting

30%

Minimum mark or grade

50%

Assessment Criteria

Student is able to:

- 1. Competently assess a person's pulse, blood pressure, respiratory rate and body temperature.
- 2. Competently perform basic clinical examination skills (observation, percussion, palpation and auscultation).
- 3. Select and competently perform the appropriate examination routine required to facilitate the recognition of specific disorders or disease states.

Submission

No submission method provided.

Submission Instructions

Practical Assessment.

Learning Outcomes Assessed

• Demonstrate competent history taking skills and physical examination procedures

• Apply the appropriate examination protocol to pathological disease states.

Graduate Attributes

3 Written Assessment

Assessment Type

Written Assessment

Task Description

Final theory written test that will assess all unit content across 12 weeks.

It is worth 50% of unit total grade

Computer lab will be booked on each campus for students to complete the assessments.

120 minutes plus reading time.

Minimum grade (pass) 50%

Assessment Due Date

Review/Exam Week Wed (13 Oct 2021) 09:00-11:00 am AEST. Students will complete this assessments on campus in a computer lab. Refer to timetable.

Return Date to Students

Two weeks after due date of Written Assessment.

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

Student able to demonstrate:

- 1. Understanding of the relationship between anatomy, physiology, pathology and diagnosis.
- 2. Understanding of the pathophysiological basis for a range of symptoms and signs.
- 3 Understanding indications for a system examination and the implications of its findings.
- 4- Clinical reasoning in forming a differential diagnosis based on history and examination findings
- 5- Knowledge of common clinical investigations of body systems and familiarity with management options of their disorders.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
