

CHIR20006 Clinical Practice 3

Term 3 - 2023

Profile information current as at 29/04/2024 08:36 pm

All details in this unit profile for CHIR20006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Clinical Practice 3 is the third block of practical experience which is undertaken in the CQUni Health Clinic. You will perform as a functional team member under guidance of clinic supervisors and senior interns. You will build on theoretical knowledge and practical skills learnt in the previous two clinical units of the course and will be expected to demonstrate this increased knowledge and skill by contributing to patient assessment and treatment. You will actively contribute to clinical decision making and be able to undertake clinical tasks under supervision. In order to pass this unit you must demonstrate a mastery level of knowledge and understanding of chiropractic procedures, processes and documentation and demonstrate compliance with Chiropractic Professional Competency Standards.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Some students felt that the nutrition and pharmacology stream could be better integrated into the unit.

Recommendation

It is recommended that the discipline explore opportunities to better integrate nutrition and pharmacology within the degree.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Perform appropriate patient-centered clinical assessments and management in a mock setting.
2. Synthesise clinical data to generate an appropriate diagnosis and treatment plan which consider the principles of health promotion, injury prevention, and interprofessional practice.
3. Demonstrate effective communication skills, including explaining a diagnosis and treatment plan to a patient, and producing written professional reports.
4. Behave in a way that is congruent with the duty of care of a primary contact health care practitioner and the elements of the chiropractic code of conduct.

This unit is a specific immersion unit to assist the student to develop their individualised pathway towards strengthening the majority of elements and performance indicators of CCEA's Accreditation Standards for areas considered 'clinical interest' as opposed to general practice. In total, this unit will address aspects of Unit 6 Patient Assessment, Unit 7 Diagnostic Decision Making, Unit 8 Planning of Patient Care, Unit 9 Implementation of Care, and Unit 3 Professional Interaction. There will be some elements addressed from Unit 10 Disease Prevention and Health Promotion and Unit 11 Professional Scientific Development.

The Learning Outcomes will be evident in continuing, supervised patient contact leading to participation in patient care.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
