

CHIR20007 *Diagnostic Imaging 2*

Term 3 - 2018

Profile information current as at 08/05/2024 09:25 am

All details in this unit profile for CHIR20007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit is a continuation of Diagnostic Imaging 1, and covers pathological processes as represented on diagnostic imaging studies, not covered in Diagnostic Imaging 1.

Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Corequisite: CHIR20006 Clinical Practice 3 Pre-requisite CHIR20005 Diagnostic Imaging 1

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 3 - 2018

- Distance

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Written Assessment**

Weighting: 20%

2. **Practical Assessment**

Weighting: 40%

3. **Examination**

Weighting: 40%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

OSCE in week 13, not week 12

Recommendation

I will seek approval from HOC to place the OSCE in week 13 and complete the necessary change of course proposal.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Identify the radiographic signs of disease.
2. Differentiate normal from abnormal radiographic structures of the body.
3. Develop and utilise a search strategy to locate and describe disease processes.
4. Create a differential diagnosis list and decide which entity is most likely based on radiographic and clinical information.
5. Select appropriate management for a variety of abnormalities.
6. Write complete and concise radiology reports.

The Learning Outcomes are in the context of the AQF and specifically address Units 6, 7, 8, 9, of the CCEA Competencies, in particular elements 6.1, 6.2, 6.5, 6.6, 7.2, 9.2, 9.3 with an emphasis on elements 6.4, 7.1, 8.3, and 9.10.

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Alignment of Assessment Tasks to Learning Outcomes

Assessment Tasks

1 Case Report

Assessment Type

Written Assessment

Task Description

Assignment 1500 words maximum.

Please select an example of a disorder covered within the lecture content and obtain appropriate imaging to demonstrate the abnormality in a digital format from the internet, or other means. The original source must be referenced appropriately and de-identified for privacy.

Write a detailed radiology report on the disorder and include a short literature review to explain the clinical (including aetiology), pathological and radiological presentations of this disorder.

The images must be provided in a digital format as well as embedded within the assignment.

Assessment Due Date

Week 8 Friday (11 Jan 2019) 5:00 pm AEST

Return Date to Students

Week 11 Friday (1 Feb 2019)

Weighting

20%

Minimum mark or grade

50%

Assessment Criteria

1. Provide appropriate images to demonstrate the pathology on conventional x-ray and/or advanced imaging. At least two views of the abnormality are required for x-ray images and/or at least two views with multiple spin echo sequences for MRI. (no marks awarded for this criteria)
 2. Provide a detailed radiological narrative report including all relevant findings and pertinent negative findings. Include a clinical impression and appropriate recommendations. 10 marks
 3. Provide a discussion including a minimum of 5 references from up to date peer-reviewed journal literature covering the aetiology, clinical presentation, pathological and radiological features of the disorder. 40 marks
- Up to 3 marks will be deducted for poor quality, format and/or appropriateness of referencing.

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

Submission

Online

Submission Instructions

Original images must also be provided in jpeg, bitmap, tiff or dicom format via email, USB or CD

Learning Outcomes Assessed

- Differentiate normal from abnormal radiographic structures of the body.
- Develop and utilise a search strategy to locate and describe disease processes.
- Create a differential diagnosis list and decide which entity is most likely based on radiographic and clinical information.
- Select appropriate management for a variety of abnormalities.
- Write complete and concise radiology reports.

Graduate Attributes

- Knowledge
- Research
- Self-management

2 Practical Assessment

Assessment Type

Practical Assessment

Task Description

OSCE Examination

25 stations. 2 minutes per station.

Students will be required to review an image with or without an accompanying history from which they will be required to answer a number of short answer questions. The question bank will include content from the radiology lectures as well as from the radiographic positioning manual and practical sessions. Some normal radiographic anatomy knowledge is also required.

Assessment Due Date

Week 12 Thursday (7 Feb 2019) 11:45 pm AEST

The actual time scheduled for this assessment will be flexible during week 12. An agreed time prior to week 12 to ensure this assessment does not clash with other lectures/assessments in week 12.

Return Date to Students

Exam Week Friday (15 Feb 2019)

Results will be included in the University release of grades with final examinations and unit grades.

Weighting

40%

Minimum mark or grade

50%

Assessment Criteria

In order to achieve a passing grade or higher, students will be required to demonstrate their competencies in the following areas:

1. Identification of pathologies covered in the course;
2. Apply appropriate terminology to describe the radiographic appearance and diagnosis of pathologies;
3. Demonstrate an understanding of the pathogenesis of the disorders which gives rise to their radiographic appearance;
4. Demonstrate an understanding of the contraindications to manual therapies;
5. Demonstrate an understanding of appropriate referral including GP, Specialist, Advanced Imaging, Pathology.

Referencing Style

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
