General Information

Overview

In this unit, you will focus on examining, diagnosing and managing common conditions that impact male and female health across the lifespan. You will advance your understanding of a range of management topics related to multicultural and ageing populations including injury prevention, advice on healthy lifestyles, self-managed care, rehabilitation, and treatment options. This unit will assist you with your clinical development in the student clinic by addressing the importance of integrating knowledge and skills to support clinical decision-making for these special populations.
